MELTEX Product Catalog 2026

FINNISH CRAFTSMANSHIP SINCE 1993

BELOW GROUND AND INSIDE WALLS

We offer a wide range of products, special expertise in the building materials sector, and fast deliveries throughout Finland. Meltex is a specialist in civil engineering and HVAC supplies: we supply pipes and drains, rather than paint and wallpaper. Everything below ground and inside wall cavities!

DELIVERIES STRAIGHT FROM THE MANUFACTURER AND IMPORTER. WITHOUT MIDDLEMEN!

We manufacture, sell and supply building materials for infrastructure and building construction, and HVAC contracting. However, we are differentiated from other pipe manufacturers, hardware stores and wholesalers by the fact that we cover the entire chain from manufacturing, imports, warehousing and retailing to stores and deliveries.

Service-minded sales team
"We will make it happen!"

GEOTEXTILES

MELTEX supplies geotextiles for all construction sites from cottage shores to motorways. Various geotextiles, such as filter fabrics and drainage mats, are used versatily for soil separation, reinforcement, consolidation, and drainage.

Class N1 (Norgeospec 2012)

N1-class geotextiles for small construction projects, such as green and garden construction, beaches, driveways and paths, and house foundations.

Product code	Product name	pcs/package	Unit
157450	MX-Filter fabric 2,0x100m N1 - 1NG (200m²)	20.0	rl
157455	MX-Filter fabric 4,0x100m N1 - 1NG (400m²)	20.0	rl
157460	MX-Filter fabric 5,0x100m N1 - 1NG (500m²)	20.0	rl
157465	MX-Filter fabric 6,0x100m N1 - 1NG (600m²)	20.0	rl

Class N2 (Norgeospec 2012)

N2-class geotextiles for more demanding house foundations and road base repairs.

Product code	Product name	pcs/package	Unit
157470	MX-Filter fabric 2,0x100m N2 - 2NG (200m²)	14.0	rl
157475	MX-Filter fabric 4,0x100m N2 - 2NG (400m²)	14.0	rl
157480	MX-Filter fabric 5,0x100m N2 - 2NG (500m²)	14.0	rl
157485	MX-Filter fabric 6,0x100m N2 - 2NG (600m²)	14.0	rl

Class N3 (Norgeospec 2012)

N3-class geotextiles for demanding projects, such as heavy traffic road bases and highways.

Product code	Product name	pcs/package	Unit
157486	MX-Filter fabric 2,0x100m N3 - 3NG (200m ²)	12.0	rl
157487	MX-Filter fabric 3,0x100m N3 - 3NG (300m ²)	12.0	rl
157488	MX-Filter fabric 3,5x100m N3 - 3NG (350m ²)	12.0	rl
157490	MX-Filter fabric 4,0x100m N3 - 3NG (400m ²)	12.0	rl
157495	MX-Filter fabric 5,0x100m N3 - 3NG (500m ²)	12.0	rl
157500	MX-Filter fabric 6,0x100m N3 - 3NG (600m ²)	12.0	rl

Class N4 (Norgeospec 2012)

N4-class geotextiles for demanding projects where construction is on a soft base and heavy aggregate is dropped.

Product code	Product name	pcs/package	Unit
157505	MX-Filter fabric 5,0x100m N4 - 4NG (500m ²)	8.0	rl
157510	MX-Filter fabric 6,0x100m N4 - 4NG (600m ²)	8.0	rl

Class N5 (Norgeospec 2012)

N5-class geotextiles for very demanding projects where construction is on a soft base or boulders are dropped in blasting work.

Product code	Product name	pcs/package	Unit
157515	MX-Filter fabric 5,0x75m N5 - 5NG (375m ²)	8.0	rl
157520	MX-Filter fabric 6,0x75m N5 - 5NG (450m ²)	8.0	rl

Small packages

Geotextile small packs for yard construction, such as driveways, drainage, under terraces and paving stones, and for beaches.

Product code	Product name	pcs/package	Unit
157300	Filter fabric 1.2 x 7.5m (9m ²)	1.0	pkg
157305	Filter fabric 1,2 x 15m (18m ²)	60.0 / lava	pkg
157310	Filter fabric 4 x 5m (20m ²)	132.0 / lava	pkg
157315	Filter fabric 10 x 5m (50m ²)	45.0 / lava	pkg
157320	Filter fabric 25 x 5m (125m ²)	20.0 / lava	pkg

Geo grids

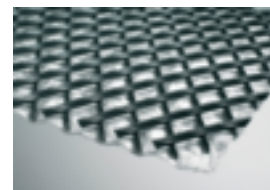

Reinforcement grids and fabrics are used to improve the load-bearing capacity of the soil. They enhance the structure's load resistance by absorbing stresses that form in the ground and distributing and leveling loads over a wider area.

Product code	Product name	pcs/package	Unit
157999	MIRAGRID GX 30/30	1.0	rl
158001	Reinforcement mesh MIRAGRID GX 35/35 5.2x50m	1.0	rl
158000	Geogrid MIRAGRID GX 35/35 5,2x100m	1.0	rl
158002	Geogrid MIRAGRID GX 40/40	1.0	rl
158005	Geogrid MIRAGRID GX 55/55 5,2x100m	1.0	rl
158008	Geogrid MIRAGRID GX 80/80	1.0	rl
158020	Geolon Hmi-5 reinforcement fabric 5.2x100m (520m ²)	1.0	rl
158025	MIRAFI Geolon PP 40	1.0	rl
158030	MIRAFI Geolon PET 70S	1.0	rl
158035	MIRAFI Geolon PET 150S	1.0	rl
158015	Rock PEC 40/40 geocomposite	1.0	rl
158017	Miragrid PEC 75/75 5,30x100	1.0	pcs

Drain carpets

Drainage mats are composite structures with high water flow capacity. They consist of a geogrid with filter fabric on one or both sides. Their applications include parking garages, flat roofs, terraces, retaining walls, basement and wall drainage, and covering fill soils in landfills, among other uses.

Product code	Product name	pcs/package	Unit
167610	Drainage mat DC 402E 2x25m=50m²	1.0	rl
167615	Drainage mat DC 602E 2x25m=50m²	1.0	rl
167602	Drainage mat Megadrain S 38-215 2,4x33m=79,2m²	1.0	rl
167613	FABRINET DC 502 2X50M	1.0	rl

Geo plates

Geoplates for construction to strengthen soil.

Product code	Product name	pcs/package	Unit
159700	MX-Metal coated structural steel 900x5000	50.0	pcs
159702	Lipping for MX-pipe grate 180x2750mm	1.0	pcs

Product code	Product name	pcs/package	Unit
735250	MX-H400 filter fabric 6.0x50m (300m²)	8.0	rl
735255	MX-H500 filter fabric 6.0x50m (300m²)	8.0	rl
735260	MX-H600 filter fabric 6.0x50m (300m²)	8.0	rl

FROST INSULATIONS

EPS and XPS frost insulation for construction needs. Frost insulation is a crucial part of protecting buildings and infrastructure from damage caused by cold and frost heave. With us, you will find a wide range of frost insulation products that provide effective insulation and improve the energy efficiency of buildings.

EPS

EPS-golv- och frostsäkringar för byggbehov

Product code	Product name	pcs/package	Unit
152400	EPS 120 ROUTA 50mm (12m2/pkg)	1.0	pkg
152420	EPS 120 ROUTA 100mm (6m2/pkg)	1.0	pkg
152405	EPS 120 Pro ROUTA 50mm (12m2/pkg)	1.0	pkg
152425	EPS 120 Pro ROUTA 100mm (6m2/pkg)	1.0	pkg
152390	EPS 100 LATTIA 50mm (12m2/pkg)	1.0	pkg
152395	EPS 100 LATTIA 100mm (6m2/pkg)	1.0	pkg

XPS

XPS-frostsäkringar för byggbehov

Product code	Product name	pcs/package	Unit
708245	Finnfoam FL-300 100mm 585x2485mm	3.0	pcs
708240	Finnfoam FL-300 70mm 585x2485mm	5.0	pcs
708235	Finnfoam FL-300 50mm 585x2485mm	5.0	pcs

Pordrän

Pordrän provides an innovative and reliable solution for waterproofing in all construction projects. Its unique design ensures excellent drainage and protects structures from moisture damage.

Product code	Product name	pcs/package	Unit
713155	Pordrän internal angle for Cover strip 110mm	1.0	pcs
713165	Pordrän internal angle for Cover strip 210mm	1.0	pcs
713150	Pordrän outer angle for Cover strip 110mm	1.0	pcs
713160	Pordrän outer angle for Cover strip 210mm	1.0	pcs
152560	Pordrän Insulation Board P30 1200x750x100mm	30.0	pkg
152455	Pordrän Insulation Board P19 1200x750x100mm	30.0	pkg
713140	Pordrän Cover strip 100 x 2500mm	20.0	pcs
713145	Pordrän Cover strip 200 x 2500mm	10.0	pcs

Pipe insulation channels

Our high-quality pipe insulation channels provide excellent protection and insulation for your entire piping system. Designed to withstand demanding conditions, these channels help minimize heat loss and ensure a long lifespan for the piping.

Product code	Product name	pcs/package	Unit
152365	EPS channel 50/58x1000mm (2)	1.0	pcs
152375	EPS channel 75/50x1000mm (2)	1.0	pcs
152385	EPS channel 165/50x1000mm (2)	1.0	pcs
152370	EPS channel 63/51x1000mm (2)	1.0	pcs
152360	EPS channel 43/47x1000mm (2)	1.0	pcs
152380	EPS channel 115/50x1000mm (2)	1.0	pcs
152310	EPS channel 43/30 (2 halves)	33.0	pcs
152315	EPS channel 50/30 (2 halves)	28.0	pcs
152320	EPS channel 63/30 (2 halves)	24.0	pcs
152305	EPS channel 35/30 (2 halves)	33.0	pcs
152335	EPS channel 105/30 (2 halves)	15.0	pcs
152300	EPS channel 28/30 (2 halves)	35.0	pcs
152340	EPS channel 115/30 (2 halves)	13.0	pcs
152345	EPS channel 165/30 (2 halves)	9.0	pcs
152325	EPS channel 76/30 (2 halves)	20.0	pcs
152350	EPS channel 43/50x1200mm (2)	1.0	pcs
152355	EPS channel 76/50x1200mm (2)	1.0	pcs

RAINWATER AND DRAINAGE SYSTEMS

The stormwater system carries rainwater from the roof and yard areas in a controlled manner, reducing the formation of puddles and the flooding of stormwater. The rainwater is directed through downpipes installed over stormwater drains and further into the stormwater pipe. Rainwater can also be collected from yard areas using stormwater drains with grates and line drainage channels. The drainage system dries the building's foundation by directing rainwater away from the walls and the foundation area. The drainage thus protects the building's foundation and structures from moisture, mold, and frost damage. The drainage system consists of perforated drainage pipes placed along the walls, and inspection wells in the building's corners, from which the system's functionality can be checked, and the pipes can be serviced if necessary.

Drumpipes

MELTEX culvert pipes for drainage, sub-drainage, and directing water underground. SN8 strength class pipes are suitable for traffic areas, road construction, and other heavily loaded areas and SN4 pipes are suitable for lighter loads, such as fields, private road connections, and yard and green areas. Culvert pipes are double-layered, with a corrugated outer surface and a smooth inner surface. MELTEX manufactures culvert pipes according to the SFS 3453 standard, and they meet the quality requirements of RIL 128-2002. Culvert pipes are made from durable polyethylene or polypropylene. The lengths of the culvert pipes are 6m, 8m, 9m, 10m, and 12m on request. Smaller culvert pipes are used for directing rainwater from roof drains to the main drain and for technical drainage around buildings. Larger culvert pipes are used in municipal engineering for directing rainwater. Culvert pipes are available with an outer diameter of up to 900mm, with larger sizes available on request.

Product code	Product name	pcs/package	Unit
100105	Culvert pipe 400/347 mm x 6 m SN8 with socket	6.0 / hkk	pcs
100110	Culvert pipe 450/400 mm x 6 m SN8 with socket	6.0 / hkk	pcs
100115	Culvert pipe 560/500 mm x 6 m SN8 with socket	4.0 / hkk	pcs
100120	Culvert pipe 670/600 mm x 6 m SN8 with socket	2.0 / hkk	pcs

100850	MX-Double+ 250/200mm x 6m PP SN8 with sealing	11.0	pcs
100855	MX-Double+ 315/276mm x 6m PP SN8 with sealing	8.0	pcs
100860	MX-Double+ 400/346mm x 6m PP SN8 with sealing	6.0	pcs

Drainage pipes

MELTEX dubbeldräneringsrör för torkning av byggnaders grund och mark- och fältområden. Rör i styrkeklass SN8 är lämpliga för trafikområden, vägbyggnation och andra tungt belastade områden. Dubbeldräneringsrör är perforerade antingen runt om eller på toppen och är dubbellagda, med en korrugerad yttersida och en slät innersida. MELTEX tillverkar dubbeldräneringsrör enligt SFS 3453-standarderna och de uppfyller kvalitetskraven enligt RIL 128-2002. Dubbeldräneringsrör är tillverkade av hållbar polyeten och deras längd är 6 m.

Flexible rainwater and drainage pipes

Flexible rainwater and drainage pipes for directing rainwater away from the walls and the vicinity of the foundations. MELTEX's flexible rainwater and drainage pipes have a strong SN8 ring stiffness class but are still flexible due to their manufacturing material. With flexible pipes, it is easy to go around building corners, terraces, and bay windows without separate corner connection pieces. Connecting discharge pipes from roof drains to the main line is also effortless. Flexible pipes are also easy to transport: a coil fits even in a trailer, and a few flexible pipe sections can be coiled into the trunk of a car.

MX-Radon pipes

Radon is a dangerous, invisible, and odorless noble gas found in soil. Radon is released into the air, especially from well-ventilated soil such as gravel and sand ridges. Radon-containing air from the soil penetrates basements and homes mainly through the base of the house and gaps between the foundation and the ground slab.

Field drainage pipes

Field drainage increases the arable area and improves its productivity. Thanks to field drainage, the entire growing season can be utilized. Good field drainage ensures that the field dries quickly in spring and stays dry longer in autumn. Field drainage also improves soil structure, which helps maintain good crop condition. This enables high and high-quality yield productivity. Field drainage of an open-ditched field eliminates the need for open-ditch maintenance and increases the arable area while also reducing weeds and pests. Well-planned and implemented drainage is the foundation of profitable farming

DRAINAGE PIPES AND PARTS

MELTEX sewer pipes and parts for property sewerage and ground sewers for both wastewater and rainwater. Property sewer pipes and parts are used as wastewater and rainwater sewers inside buildings, in the base slab, and under it, as well as outside the foundation installed in the ground as a plot sewer. Ground sewer pipes are used as gravity sewers for rainwater and wastewater drainage when installed in the ground.

Drainage pipes and parts, HST and RST

BLÜCHER® EuroPipe pipes and fittings for both new construction and renovation projects. Stainless steel pipes and parts can be used both above and below ground. Socket pipes are suitable for applications such as wastewater and rainwater drainage, vacuum drainage, roof drain systems, and dual drainage systems. The light weight of the pipe, the minimal need for pipe supports, and the socket make installation and connection to other system components easy to implement

HT- pipes

MELTEX HT property sewer pipes are used as wastewater and rainwater sewers inside buildings, in the base slab, and under it, as well as outside the foundation installed in the ground as a plot sewer. Property sewer pipes are manufactured at MELTEX's Kuhmoinen factory from durable polypropylene, and they meet the requirements of EN 1451-1 and NPG/PS102 standards. INSTA-CERT certification is a Nordic procedure that ensures compliance with standards in various piping systems. MELTEX HT property sewer pipes' Nordic Poly Mark quality mark ensures that the products are of high quality and suitable for Nordic conditions. MELTEX HT property sewer pipes withstand hot, cold, and chemicals and are lightweight to handle. The pipes are single-layered and smooth both inside and outside. The ring stiffness of the pipes is SN4 (32-75mm) or SN8 (110mm-) depending on the size, and they have an integrated socket. Tight connections are ensured with Dinlock seals. Property sewer pipes are grey in color.

NAL- pipes

MELTEX NAL ground sewer pipes are used as gravity sewers for rainwater and wastewater drainage when installed in the ground. Ground sewer pipes are manufactured at MELTEX's Kuhmoinen factory from durable polypropylene, and they meet the technical requirements of the EN 14758 standard. INSTA-CERT certification is a Nordic procedure that ensures compliance with standards in various piping systems. MELTEX NAL ground sewer pipes' Nordic Poly Mark quality mark ensures that the products are of high quality and suitable for Nordic conditions. MELTEX NAL property sewer pipes and parts withstand heat, cold, and chemicals, and are lightweight to handle. The pipes are single-layered and smooth both inside and outside. The ring stiffness of the pipes is SN8, and they have an integrated socket with a seal. Oil-resistant seals are also available for the pipes. Ground sewer pipes are reddish-brown in color.

109330	50/50-45+ HT branch, triple socket	25.0 / ltk	pcs
109335	75/50-45+ HT branch, triple socket	15.0 / ltk	pcs
109340	75/75-45+ HT branch, triple socket	24.0 / ltk	pcs
109345	110/50-45+ HT branch, triple socket	15.0 / ltk	pcs
109350	110/75-45+ HT branch, triple socket	12.0 / ltk	pcs
109355	110/110-45+ HT branch, triple socket	8.0 / ltk	pcs
109365	50/50-88,5+ HT branch, triple socket	27.0 / ltk	pcs
109370	75/50-88,5+ HT branch, triple socket	15.0 / ltk	pcs
109375	110/50-88,5+ HT branch, triple socket	20.0 / ltk	pcs

Product code	Product name	pcs/package	Unit
109385	75/75-88,5+ round HT branch, triple socket	24.0 / Itk	pcs
109390	110/75-88,5+ round HT branch, triple socket	8.0 / Itk	pcs
109395	110/110-88,5+ round HT branch, triple socket	8.0 / Itk	pcs
110195	110/75-88,5+ HT-triple socket branch steep	25.0	pcs
109380	110/110-88,5+ HT-triple socket branch steep	10.0	pcs
109325	32/32-45+ HT branch, triple socket	30.0 / Itk	pcs
109360	32/32-88,5+ HT branch, triple socket	30.0 / Itk	pcs
109440	110x110x88,5 triple socket branch	5.0	pcs
108325	160/110-45+ NAL Branch, triple socket	6.0 / Itk	pcs
108330	160/160-45+ NAL Branch, triple socket	4.0 / Itk	pcs

Double socket branches

Branches for connecting sewer pipes.

Product code	Product name	pcs/package	Unit
109250	50/50-45- HT branch, double socket	25.0 / Itk	pcs
109255	75/50-45- HT branch, double socket	15.0 / Itk	pcs
109260	75/75-45- HT branch, double socket	24.0 / Itk	pcs
109265	110/50-45- HT branch, double socket	15.0 / Itk	pcs
109270	110/75-45- HT branch, double socket	12.0 / Itk	pcs
109275	110/110-45- HT branch, double socket	8.0 / Itk	pcs
109285	50/50-88,5- HT branch, double socket	27.0 / Itk	pcs
109290	75/50-88,5- HT branch, double socket	15.0 / Itk	pcs
109300	110/50-88,5- HT branch, double socket	15.0 / Itk	pcs
109295	75/75-88,5- round HT branch, double socket	24.0 / Itk	pcs
109305	110/75-88,5- HT branch, double socket	20.0 / Itk	pcs
109315	110/110-88,5- round HT branch, double socket	8.0 / Itk	pcs
110185	75/75/88,5- HT-branch, double socket, steep	25.0	pcs
110200	11075-88,5- HT-branch, double socket, steep	25.0	pcs
109310	110/110-88,5- HT-branch, double socket steep	1.0	pcs
109280	32/32-88,5 HT-branch, double socket	60.0	pcs
109245	32/32-45 HT-branch, double socket	1.0	pcs
107920	KGEA Branch DN 160/110 45°	5.0 / Itk	pcs
107925	KGEA Branch DN 160/160 45°	4.0 / Itk	pcs
107930	KGEA Branch DN 200/110 45°	30.0 / Itk	pcs
107935	KGEA Branch DN 200/160 45°	25.0 / Itk	pcs

107990	KGEA Branch DN 160/110 87°	8.0	pcs
109320	160/160-87- NAL Branch, double socket	40.0	pcs
108005	KGEA Branch DN 250/200 87°	14.0	pcs
108010	KGEA Branch DN 250/250 87°	10.0	pcs
108014	KGEA Branch DN 315/315 87°	6.0	pcs
107995	KGEA Branch DN 200/110 87°	41.0	pcs

Reducers

Reducers for reducing sewer pipes.

Product code	Product name	pcs/package	Unit
109446	50/32 HT-reducer Merika 2154 white. Centered	1.0	pcs
109680	75x50 HT short reducer for pipe	1.0	pcs
109685	110x75 HT short reducer for pipe	1.0	pcs
109455	75/50 HT reducer	24.0 / Itk	pcs
109460	110/50 HT, long reducer	24.0 / Itk	pcs
109465	110/75 HT, long reducer	20.0 / Itk	pcs
109445	50/32 white HT reducer	15.0 / Itk	pcs
109675	75/50 HT-reducer, short	20.0	pcs
108040	KGR Reducer DN 160/110	25.0 / Itk	pcs
108045	KGR Reducer DN 200/160	135.0 / Itk	pcs
108050	250/110 NAL reducer	1.0	pcs
108055	250/160 NAL reducer	1.0	pcs
108060	KGR Reducer DN 250/200	54.0	pcs
108075	KGR Reducer DN 315/250	21.0	pcs
108080	KGR Reducer DN 400/315	10.0	pcs
108085	KGR Reducer DN 500/400	2.0	pcs

Double socket bends

Socketed elbows for connecting sewer pipes and creating angles.

Product code	Product name	pcs/package	Unit
109090	32-15+ white HT pipe bend, double socket	30.0 / Itk	pcs
109110	32-30+ white HT pipe bend, double socket	30.0 / Itk	pcs
109130	32-45+ white HT pipe bend, double socket	30.0 / Itk	pcs
109150	32-88,5+ white HT pipe bend, double socket	30.0 / Itk	pcs
109095	50-15+ HT pipe bend, double socket	25.0 / Itk	pcs
109100	75-15+ HT pipe bend, double socket	25.0 / Itk	pcs
109105	110-15+ HT pipe bend, double socket	25.0 / Itk	pcs
109115	50-30+ HT pipe bend, double socket	25.0 / Itk	pcs
109120	75-30+ HT pipe bend, double socket	20.0 / Itk	pcs
109125	110-30+ HT pipe bend, double socket	25.0 / Itk	pcs
109135	50-45+ HT pipe bend, double socket	25.0 / Itk	pcs
109140	75-45+ HT pipe bend, double socket	20.0 / Itk	pcs
109145	110-45+ HT pipe bend, double socket	20.0 / Itk	pcs
109170	50-88,5+ round HT pipe bend, double socket	30.0 / Itk	pcs
109175	75-88,5+ round HT pipe bend, double socket	12.0 / Itk	pcs
109180	110-88,5+ round HT pipe bend, double socket	15.0 / Itk	pcs
109155	50-88,5+ steep HT pipe bend, double socket	20.0	pcs
109160	75-88,5+ steep HT pipe bend, double socket	18.0 / Itk	pcs
109165	110-88,5+ steep HT pipe bend, double socket	18.0 / Itk	pcs
109670	110-88,5+ WC HT pipe bend, double socket	20.0	pcs
108300	160-15+ NAL Bend, double socket	12.0 / Itk	pcs
108305	160-30+ NAL Bend, double socket	10.0 / Itk	pcs
108310	160-45+ NAL Bend, double socket	10.0 / Itk	pcs
108315	160-88,5+ NAL round Bend, double socket	6.0 / Itk	pcs
108320	160-88,5+ NAL steep Bend, double socket	8.0 / Itk	pcs

Single socket bends

Elbows for connecting property pipes and creating angles.

Product code	Product name	pcs/package	Unit
109000	32-15- white HT pipe bend, single socket	30.0 / ltk	pcs
109020	32-30- white HT pipe bend, single socket	30.0 / ltk	pcs
109040	32-45- white HT pipe bend, single socket	30.0 / ltk	pcs
109060	32-88,5- white HT pipe bend, single socket	30.0 / ltk	pcs
109005	50-15- HT pipe bend, single socket	25.0 / ltk	pcs
109010	75-15- HT pipe bend, single socket	25.0 / ltk	pcs
109015	110-15- HT pipe bend, single socket	25.0 / ltk	pcs
109025	50-30- HT pipe bend, single socket	25.0 / ltk	pcs
109030	75-30- HT pipe bend, single socket	20.0 / ltk	pcs
109035	110-30- HT pipe bend, single socket	25.0 / ltk	pcs
109045	50-45- HT pipe bend, single socket	25.0 / ltk	pcs
109050	75-45- HT pipe bend, single socket	20.0 / ltk	pcs
109055	110-45- HT pipe bend, single socket	20.0 / ltk	pcs
109080	75-88,5- round HT pipe bend, single socket	35.0 / ltk	pcs
109085	110-88,5- round HT pipe bend, single socket	15.0 / ltk	pcs
109065	50-88,5- HT pipe bend, single socket	20.0 / ltk	pcs
109070	75-88,5- steep HT pipe bend, single socket	18.0 / ltk	pcs
109075	110-88,5- steep HT pipe bend, single socket	18.0 / ltk	pcs
107890	KGB Bend DN 160 15°	12.0 / ltk	pcs
107895	KGB Bend DN 200 15°	50.0 / ltk	pcs
107900	KGB Bend DN 250 15°	24.0	pcs
107905	KGB Bend DN 315 15°	12.0	pcs

107850	KGB Bend DN 400 45°	5.0	pcs
107855	KGB Bend DN 500 45°	2.0	pcs

Product code	Product name	pcs/package	Unit
107800	KGB Bend DN 160 87°	8.0 / Itk	pcs
107805	KGB Bend DN 200 87°	30.0 / Itk	pcs
107810	KGB Bend DN 250 87°	18.0	pcs
107815	KGB Bend DN 315 87°	9.0	pcs
107820	KGB Bend DN 400 87°	4.0	pcs

Drain couplers

Push fittings for connecting and extending sewer pipes.

Product code	Product name	pcs/package	Unit
109470	32 white HT sliding sleeve	30.0 / Itk	pcs
109475	50 HT sliding sleeve	24.0 / Itk	pcs
109480	75 HT sliding sleeve	12.0 / Itk	pcs
109485	110 HT sliding sleeve	24.0 / Itk	pcs
108090	KGU Coupler DN 160	12.0 / Itk	pcs
108095	KGU Coupler DN 200	60.0 / Itk	pcs
108100	KGU Coupler DN 250	32.0	pcs
108105	KGU Coupler DN 315	16.0	pcs
108110	KGU Coupler DN 400	8.0	pcs
108115	KGU Coupler DN 500	4.0	pcs

Double sockets

Double sockets for connecting and extending sewer pipes.

Product code	Product name	pcs/package	Unit
109490	32 HT double socket	30.0 / Itk	pcs
109495	50 HT double socket	24.0 / Itk	pcs
109500	75 HT double socket	12.0 / Itk	pcs
109505	110 HT double socket	24.0 / Itk	pcs
108120	KGMM Double Socket DN 110	32.0	pcs
108125	KGMM Double Socket DN 160	12.0 / Itk	pcs
108130	KGMM Double Socket DN 200	60.0 / Itk	pcs
108135	KGMM Double Socket DN 250	32.0	pcs
108140	KGMM Double Socket DN 315	16.0	pcs

Product code	Product name	pcs/package	Unit
108145	400 NAL double socket	8.0	pcs
108150	500 NAL double socket	4.0	pcs
109585	50 inner sleeve PP	1.0	pcs
109590	75 inner sleeve PP	1.0	pcs
109595	110 inner socket PP	1.0	pcs

Plugs

Caps for the ends of sewers.

Product code	Product name	pcs/package	Unit
109550	32 HT plug	10.0 / ltk	pcs
109555	50 HT plug	10.0 / ltk	pcs
109560	75 HT plug	20.0 / ltk	pcs
109565	110 HT plug	36.0 / ltk	pcs
109545	110 HT cleaning plug	20.0 / kpl	pcs
109880	Vieser plug ``nerokas`` 50/75/110 blue 51720	50.0	pcs
109570	50 HT-plug to vertical pipe	1.0	pcs
109575	75 HT-plug to vertical pipe 427627	1.0	pcs
109580	110 HT-plug to vertical pipe 427633 tiiv.	1.0	pcs
109885	110/75/50 HT work plug Merika 1202	50.0 / ltk	pcs
108295	160/200 work plug	15.0	pcs
108275	160 NAL cleaning plug	30.0 / kpl	pcs
108280	200 NAL cleaning plug	15.0	pcs
108170	KGM Plug DN 160	20.0 / ltk	pcs
108175	KGM Plug DN 200	180.0 / ltk	pcs
108180	KGM Plug DN 250	96.0	pcs
108185	KGM Plug DN 315	60.0	pcs
108190	KGM Plug DN 400	32.0	pcs
108195	KGM Plug DN 500	14.0	pcs
108285	160 NAL drain access plug with socket	1.0	pcs
110355	Faluplast end plug 50/75/110mm tear away	100.0	pcs

Single socket cleanout couplings

Removable cleaning fittings for maintenance work on sewer pipes.

Product code	Product name	pcs/package	Unit
109535	75 HT cleanout coupling, double socket	15.0 / Itk	pcs
109540	110 HT cleanout coupling, double socket	12.0 / Itk	pcs
109515	75 HT-cleanout coupling, single socket	15.0 / kpl	pcs
109520	110 HT-cleanout coupling, single socket	12.0 / kpl	pcs
108155	160 NAL-clean out pipe	10.0	pcs
108160	200 NAL-clean out pipe	30.0	pcs
108165	KGRE Inspection Pipe DN 250 round opening	15.0	pcs

Couplers,

Extension fittings for connecting and extending sewer pipes made from different materials.

Product code	Product name	pcs/package	Unit
109615	75 Adapter plastic/cast iron HTP	1.0	pcs
109620	110 Adapter plastic/cast iron HTP	1.0	pcs
109630	110-170/110 shrink coupling	1.0	pcs
109600	110 HTP expansion coupling	1.0	pcs
109635	200-300/200 shrink coupling	1.0	pcs
109640	250-354/250 shrink coupling	1.0	pcs
109645	315-416/315 shrink coupling	1.0	pcs
108200	160-224/160 shrink coupling	1.0	pcs
451380	Tolerance coupling RST Canada Plus 55-65 mm	1.0	pcs
451383	Tolerance coupling RST Canada Plus 75-89 mm	1.0	pcs
451386	Tolerance coupling RST Canada Plus 100-115 mm	1.0	pcs
451389	Tolerance coupling RST Canada Plus 105-120 mm	1.0	pcs
451392	Tolerance coupling RST Canada Plus 150-175 mm	1.0	pcs
451395	Tolerance coupling RST Canada Plus 200-225 mm	1.0	pcs
110445	Purus rubber coupling Flexi 53-64/40-50mm	1.0	pcs
110448	Purus rubber coupling Flexi 110-116/75-90mm	1.0	pcs
110451	Purus rubber coupling Flexi 110-125/100-116mm	1.0	pcs
110472	Purus rubber coupling plug-in 73-85/69-75mm	1.0	pcs
110475	Purus rubber coupling plug-in 100-120/100-105mm	1.0	pcs
110454	Purus rubber coupling 40-50mm	1.0	pcs

Product code	Product name	pcs/package	Unit
110456	Purus rubber coupling 48-56mm	1.0	pcs
110458	Purus rubber coupling 50-65mm	1.0	pcs
110460	Purus rubber coupling 70-85mm	1.0	pcs
110462	Purus rubber coupling 100-116mm	1.0	pcs
110464	Purus rubber coupling 150-170mm	1.0	pcs

Sealings

Seals for creating tight connections in property sewer pipes.

Product code	Product name	pcs/package	Unit
109770	50 HT-cup seal	1.0	pcs
109775	75 HT-cup seal	1.0	pcs
109780	110 HT-cup seal	1.0	pcs
109705	HT-seal 50 BL581	1.0	pcs
109710	HT-seal 75 BL582	1.0	pcs
109715	HT-seal 110 BL583	1.0	pcs
109745	75 HT oil-resistant seal	1.0	pcs
109750	110 HT oil-resistant seal	1.0	pcs
109720	HT seal 50mm F582 Dinlock	1.0	pcs
109725	HT seal 75mm F582 Dinlock	1.0	pcs
109730	HT seal 110mm F582 Dinlock	1.0	pcs
109735	NAL-seal 160mm F582 Dinlock	1.0	pcs
109740	NAL-seal 200mm F582 Dinlock	1.0	pcs
109690	50 HT seal	1.0	pcs
109695	75 HT seal	1.0	pcs
109700	110 HT seal	1.0	pcs
109795	75 HT- O-ring seal thick	1.0	pcs
109800	110 HT- O-ring seal thick	1.0	pcs
108235	160 NAL gasket	1.0	pcs
108245	200 NAL gasket	1.0	pcs
108252	250 NAL gasket	1.0	pcs
108260	315 NAL gasket	1.0	pcs
108240	160 NAL gasket, oil-resistant	1.0	pcs
108250	200 NAL gasket, oil-resistant	1.0	pcs
108255	250 NAL gasket, oil-resistant	1.0	pcs
108265	315 NAL gasket, oil-resistant	1.0	pcs
108271	400 NAL gasket oil-resistant	1.0	pcs
110360	Faluplast rubber joint 45-47/32-40mm 85049	25.0	pcs
110365	Faluplast rubber joint 50/32-40mm 85109	25.0	pcs
110370	Faluplast rubber joint 58/40-50mm 85209	10.0	pcs
110375	Faluplast rubber joint 70-75/40-50mm 85259	10.0	pcs
110380	Faluplast rubber joint 83/32-50mm 85359	10.0	pcs

Product code	Product name	pcs/package	Unit
110385	Faluplast rubber joint 83-86/50-75mm 85409	10.0	pcs
110390	Faluplast rubber joint 96-105/50-75mm 85509	5.0	pcs
110395	Faluplast rubber joint 123-126/110mm 85602	5.0	pcs

Lubricants

Lubricants for smooth installation of pipes and parts.

Product code	Product name	pcs/package	Unit
136894	Lubricant jar 0,8 kg PAM	0.0	pcs
109810	Lubricant 400ml Spray	0.0	pcs
109805	Special Glidex lubricant concrete/metal 1kg	6.0	pcs
109815	Super Glidex lubricant 400g winter quality (-30°C)	12.0	pcs
700916	Lubricant for concrete pipe 5kg	0.0	pcs
109802	Meltex Lubricant 500g	24.0	pcs
109804	Meltex Lubricant 1000g	12.0	pcs
109825	HT lubricant 225g Upofog	1.0	pcs
109830	HT lubricant 1000 g Upofog	1.0	pcs
110350	MX-Lube All Season lubricant 500ml	12.0	pcs
109811	Glidex gliding agent 50g	24.0	pcs
110352	Jumbo Lippex lubricant spray 400ml	6.0 / prk	pcs

Slip couplers

Sand-coated penetration fittings for installation in concrete casting.

Product code	Product name	pcs/package	Unit
109605	110 HT slip coupler	24.0	pcs
109610	160 NAL slip coupler	84.0	pcs
108210	200 NAL slip coupler	6.0	pcs
108215	250 NAL slip coupler	33.0	pcs
108220	315 NAL slip coupler	18.0	pcs
108225	400 NAL slip coupler	16.0	pcs
109611	160 Lead-through coupling sand PVC	1.0	pcs
109612	200 Lead-through coupling sand PVC	1.0	pcs

PRESSURE PIPES AND SUPPLIES

MELTEX pressure pipes for many uses! With durable and flexible pipes and a comprehensive selection of fittings, we implement pressure pipe systems for both potable water and wastewater management.

Pressure pipes

MELTEX pressure pipes for many uses! With durable and flexible pipes and a comprehensive selection of fittings, we implement pressure pipe systems for both potable water and wastewater management.

Product code	Product name	pcs/package	Unit
134205	Pressure pipe PE80 20x2,0/50m SDR11 blue stripe	50.0 / rll	m
134210	Pressure pipe PE80 20x2,0/100m SDR11 blue stripe	100.0 / rll	m
134215	Pressure pipe PE80 20x2,0/200m SDR 11 blue stripe	200.0 / rll	m

Geothermal heating pipes and -chambers

Geothermal energy is heat stored in the ground, rock, or water. Most commonly, geothermal energy comes from solar radiation. When going deeper into the earth's crust, geothermal heat energy generated within the earth can also be utilized. Thus, geothermal energy is renewable and environmentally friendly energy. Geothermal energy can be collected using a geothermal heat pump and piping installed in the ground, rock, or water. MELTEX manufactures geothermal pipes and collectors, as well as geothermal wells, to create a long-lasting and durable geothermal system solution.

Product code	Product name	pcs/package	Unit
138300	Geothermal heating pipe 40x2,4 / 200 m PN8	1.0	rl
138305	Geothermal heating pipe 40x2,4 / 300 m PN8	1.0	rl
138310	Geothermal heating pipe 40x2,4 / 400 m PN8	1.0	rl
138315	Geothermal heating pipe 40x2,4 / 500 m PN8	1.0	rl
138400	MX-Geothermal chamber for 1-3 circuit	1.0 / kpl	pcs
138405	MX-Geothermal chamber for 4-5 circuit	1.0 / kpl	pcs

Product code	Product name	pcs/package	Unit
138415	Geothermal collector well RauHeat Dueta 2 circuits	1.0	pcs
138417	Geothermal collector well RauHeat Dueta 3 circuits	1.0	pcs
138419	Geothermal collector well RauHeat Dueta 4 circuits	1.0	pcs
138421	Geothermal collector well RauHeat Dueta 5 circuits	1.0	pcs
138423	Geothermal collector well RauHeat Dueta 6 circuits	1.0	pcs
138425	Geothermal collector well RauHeat Dueta 7 circuits	1.0	pcs
138427	Geothermal collector well RauHeat Dueta 8 circuits	1.0	pcs

MX-RC+ pipes with protective casing

MX-RC+ pipes with protective casing are a top-tier solution when excellent durability and protection are required in challenging conditions. These pipes' extra-strong protective sheath safeguards the core material from mechanical stress, impacts, and wear, making them the ideal choice for demanding construction and industrial applications. By choosing MELTEX's MX-RC+ pipes with protective sheaths, you ensure the highest level of protection and durability for your piping systems. They are the ideal choice for projects that require reliability and performance in demanding environments.

Electrical welding parts

Electrofusion fittings for connecting plastic polyethylene pipes. Electrofusion is a reliable, high-quality, and long-lasting method for implementing durable pipe systems. Depending on the diameter of the pipes to be connected, either electrofusion fittings or butt welding is used for the connection. Electrofusion is based on heating and melting the plastic at the joint.

Stab couplers

Mechanical plastic thread, push, and repair fittings for connecting plastic pipes. Plasson plastic thread fittings provide a solution for reliable and durable connections of PE plastic pipes. The fittings are designed to withstand up to 16 bar operating pressure and are available in sizes ranging from 16-160mm. The installation of push fittings does not require tools or tightening, which reduces the possibility of installation errors. Repair fittings for connecting pipes of different sizes and materials and for repairing leaks.

VALVES AND PIPE COUPLERS

In our selection, you will find rubber gate valves, house shut-off valves, and stem extensions. Valves and pipe connections are key components in all piping systems, whether for heating, drainage, or domestic water. With us, you will find a wide range of high-quality valves and pipe fittings that ensure the efficiency and reliability of your systems.

House shutoff valves

House shut-off valves are essential components in the water systems of homes and properties. They allow for quick control of water flow, which is crucial for both maintenance tasks and emergency situations. House shut-off valves are reliable, easy to use, and durable, making them an excellent choice for all types of water supply networks. House shut-off valves are designed to meet the needs of both consumers and professionals. They are a reliable choice for both small and large properties, ensuring the efficiency and safety of the water system.

Line valves

Line valves are essential components in piping systems where precise flow regulation and shut-off capabilities are required. High-quality line valves are designed to withstand even the most demanding operating conditions, making them an ideal choice for industrial, construction, and infrastructure projects. Line valves provide our customers with the reliability and performance needed for projects of all sizes. Whether it's an industrial application or large construction sites, our line valves ensure the safe and efficient operation of the systems.

CABEL PROTECTION

MELTEX cable protection products for durable and safe protection of underground electrical, telecommunications, and fiber optic cables. We manufacture cable protection pipes in strength classes TEL A, TEL B, and TEL C. Our range also includes cable chambers, cable ducts, flexible and split cable protection pipes, and other necessary accessories for implementing cable protection solutions."

Cabel protection pipes TEL A

Double and triple cable protection pipes for protecting underground electrical, telecommunications, and fiber optic cables. Tripla cable protection pipes manufactured by MELTEX are so-called three-layer or tripla pipes, with smooth outer and inner surfaces. Tripla cable protection pipes meet the technical requirements of standard SFS 5608, according to which cable protection pipes are classified into strength classes A and B based on ring stiffness and impact resistance. TEL A - or SN16-class pipes are used in ground-supported installations and sand-coated channels in heavy traffic areas as well as under streets and roads. Ring stiffness $SN \geq 16 \text{ kN/m}^2$. Maximum installation depth is 6.0 m. Cable protection pipes are manufactured in signal colors for different purposes. TEL A pipes are the same color inside and out, while the interior of TEL B pipes is black. Double and triple pipes are equipped with sealing rings.

Cable protection pipes PEH

PEH cable protection pipes are designed for demanding conditions where exceptionally durable and reliable cable protection is required. The strong structure of the pipes provides excellent protection against mechanical stress, impacts, and ground pressure, making them an ideal choice for infrastructure construction, traffic routes, and industrial projects.

Product code	Product name	pcs/package	Unit
133587	Cable protection tube 75x4,5/200m SDR17 yellow	1.0	rl
133603	Cable protection tube 110x6,6/300m SDR17 yellow	1.0	rl

Cable trays

Cable trays for protecting already installed underground electrical, telecommunications, and fiber optic cables.

UNDERGROUND CABLES

Underground cables for power transmission and grounding. Underground cables are an essential part of modern electrical infrastructure, providing a safe and efficient solution for electricity transmission through the ground. With us, you will find a wide range of high-quality underground cables designed to withstand varying conditions and deliver reliable electricity supply

Grounding copper wires

Suitable for grounding buildings. Meets electrical safety regulations, which state that a building connected to the electrical network must have a separate grounding electrode, which must be made of copper and have a cross-sectional area of at least 16 mm². The grounding electrode can be installed in a loop within the building's foundation or alternatively as a copper cable of at least 20 meters in the connection cable trench.

PRE-INSULATED PIPING SYSTEMS

MELTEX manufactures insulated pipe systems for heat transfer and potable water delivery between buildings, geothermal transfer pipes, and frost-resistant water pipes. MELTEX's flexible, insulated piping systems have been manufactured and sold since 1995, with over two million meters delivered to Finland and other Nordic countries.

MX-Arctiflex pipings

Insulated pressure pipes with self-regulating heating cables or without cables for water pipes or pressure sewers in areas at risk of freezing. Accessories include electrical cable splice kits, connectors, end caps, and branch chambers.

Product code	Product name	pcs/package	Unit
146675	MX-Arctiflex 25/110 PN10 without self-regulating h	200.0	m

Geothermal heat transfer pipes

Insulated pressure pipes for horizontal installations between geothermal wells and heat pumps.

Product code	Product name	pcs/package	Unit
146655	MX-Geothermal heat transfer pipe 40/75 PN10	1.0	m
146660	MX-Geothermal heat transfer pipe 50/110 PN10	1.0	m
146665	MX-Geothermal heat transfer pipe 63/110 PN10	1.0	m
146670	MX-Geothermal heat transfer pipe 90/160 PN10	1.0	m

MX-Radiflex piping systems

Insulated pipes for outdoor heating water piping in areas such as apartment and row house areas, detached houses, and farms. MX-Radiflex pipe systems are also well suited for industrial sites due to their chemical resistance. Corrugated polyethylene (PE) protective pipe provides high ring stiffness but a flexible structure. The cross-linked closed-cell PEX foam used as insulation ensures good thermal insulation values (0.037 W/mk) and a flexible structure. The flow pipe is made of cross-linked PEX pipe, which has excellent thermal properties. MX-Radiflex pipe systems are available as both single-flow (Single) and double-flow (Twin) pipe elements.

Product code	Product name	pcs/package	Unit
146715	MX-Radiflex Single 25/110 PN6	200.0	m
146720	MX-Radiflex Single 32/110 PN6	200.0	m
146725	MX-Radiflex Single 40/110 PN6	200.0	m
146730	MX-Radiflex Single 50/160 PN6	100.0	m
146735	MX-Radiflex Single 63/160 PN6	100.0	m
146740	MX-Radiflex Single 75/200 PN6	100.0	m
146745	MX-Radiflex Single 90/200 PN6	100.0	m
146750	MX-Radiflex Single 110/200 PN6	100.0	m
146755	MX-Radiflex Twin 2x25/160 PN6	100.0	m
146760	MX-Radiflex Twin 2x32/160 PN6	100.0	m
146765	MX-Radiflex Twin 2x40/160 PN6	100.0	m
146770	MX-Radiflex Twin 2x50/200 PN6	100.0	m
146775	MX-Radiflex Twin 2x63/200 PN6	100.0	m

MX-Saniflex pipings

Insulated pipes for outdoor potable water piping in areas such as apartment and row house areas, detached houses, and farms. The corrugated polyethylene (PE) protective pipe of MX-Saniflex systems provides high ring stiffness but a flexible structure. The cross-linked closed-cell PEX foam used as insulation ensures good thermal insulation values (0.037 W/mk) and a flexible structure. The flow pipe is made of cross-linked PEX pipe, which has excellent thermal properties. MX-Saniflex pipe systems are available as both single-flow (Single) and double-flow (Twin) pipe elements.

CHAMBERS AND COVERS

MELTEX manufactures chambers for rainwater, drainage, and wastewater drainage, as well as inspection and maintenance chambers for pipelines. The chambers are suitable for both municipal engineering and small-scale construction needs.

Drainage wells

MELTEX manufactures chambers for rainwater, drainage, and wastewater drainage, as well as inspection and maintenance chambers for pipelines. The chambers and separators are suitable for both municipal engineering and small-scale construction needs. MELTEX chamber packages are installation-ready standard-sized chambers, which include ready-made pipe connections, a cast iron cover system, and a telescopic adjustment for the height of the chamber. The chambers can also be easily modified on-site using penetration seals and angles, and different cover options and other accessories are also available. MELTEX custom chambers are made to order and ready for installation. The type of chamber, the height of the body, and the inlet and outlet connections are all manufactured according to the specific needs. A wide range of accessories, such as water traps, flushing pipes, and check valves, are also available for the chambers.

Product code	Product name	pcs/package	Unit
124605	Water chamber PVK 400/315mm butterfly valve	0.0	pcs
124600	Water chamber PVK 400/315mm ball float valve	0.0	pcs
124610	Water chamber PVK 600/315/150 R ball float valve	0.0	pcs
124618	Water chamber PVK 600/315/150 R butterfly valve	0.0	pcs

Rainwater chambers

Gutter chambers for directing water from roofs into the rainwater pipe. Gutter chambers are installed under the downspout and have protective grates that prevent leaves and other debris from entering the rainwater sewer.

Drainage inspection chambers

Drainage inspection chambers are intended for the inspection of property drainage systems. Drainage inspection chambers are installed in the drainage pipe line at the corners of buildings and between longer runs.

124626	Drainage well package SOK 560/500	1.0	pcs

Rainwater chambers

Rainwater chambers are used for directing rainwater, runoff, and meltwater into the rainwater sewer. The bodies of the rainwater chambers are manufactured at MELTEX's Kuhmoinen and Keuruu factories, and the chambers are assembled at several locations. The main manufacturing materials for the chambers and chamber components are polyethylene (PE), polypropylene (PP), and polyvinyl chloride (PVC). MELTEX rainwater chambers meet the requirements of standard SFS 3468 and special guideline EO 343. MELTEX rainwater chambers have a grated cover and a sediment trap, which prevent sand and other solid materials from entering the rainwater sewer. Standard chambers come with one outlet connection, and additional inlet connections can be made using penetration seals or retrofit saddle connections. The standard delivery includes a 315x750mm telescopic pipe with a 40tn cast iron cover. Rainwater wells can also be equipped with a 5tn plastic cover.

Product code	Product name	pcs/package	Unit
124630	Rainwater chamber SVK 315	0.0	pcs
124620	Rainwater chamber SVK 400/315 mm	0.0	pcs
124623	Rainwater chamber SVK 600/315/150 R	0.0	pcs

Sewer inspection pipes

MELTEX manufactures sewer inspection pipes for pipelines. Inspection pipes are individual inspection pipes that should be installed at certain intervals along the sewer line for inspection and maintenance. MELTEX inspection pipes are made from durable polyethylene (PE) and the base parts from polypropylene (PP). The standard delivery includes a 200x1500mm body part and a 160x950mm telescopic pipe with a cast iron cover.

Telescopes

Telescopic pipes can be used to adjust the height of the chamber. MELTEX telescopic pipes are available with or without a cast iron cover, in which case an RST cover or a PE plastic cover can be used. Smaller 160mm and 315mm telescopes are also available with a 5t plastic cover on request. Telescopes are available with pipes of 160mm, 200mm, 315mm, and 500mm. The standard lengths of MELTEX telescopes are 750 - 2000mm. In addition to standard sizes, telescopes are also available as custom orders.

Rainwater delaying systems

MELTEX runoff water management systems for delaying and infiltrating runoff water. Runoff water refers to rainwater and meltwater that is diverted from built-up areas. Runoff water is generated on paved yards, streets, roads, and roofs of buildings. By managing runoff water at its source, flooding caused by heavy rains and meltwater can be prevented.

Linear drainage systems

Linear drainage systems collect and direct rainwater away from paved yard areas, such as in front of garages and tiled walkways. The use of linear drainage systems reduces excavation work and the need for piping, as the installation of the channel requires only a depth of about twenty centimeters. Implementing surface slopes is also easier with linear drainage channels than with point rainwater wells. Linear drainage channels are easy to clean and open up new possibilities for yard design.

Sewer inspection chamber packages

MELTEX manufactures sewer inspection chambers for pipelines. Inspection chambers are used for inspecting, maintaining, and collecting sewers. MELTEX sewer inspection wells have a straight or crossing PRO base element made of polypropylene (PP) with a flow-directing bottom channel. The inlet and outlet connections are the same size. All connections in wastewater chambers are watertight.

PUMPING STATIONS, PUMP UNITS AND TECHNICAL CHAMBERS

MELTEX manufactures property and line pump stations for small and large sites. Additionally, we also manufacture, upon request, device chambers for various measurement and control devices, air release chambers, and pressure boosting stations.

MX-pumping stations

MX pump stations are simple in design and reliable in operation, intended for sites with small water volumes. Pump stations are available with 1-phase or 3-phase base water pumps for pumping drainage and rainwater, as well as 3-phase grinder pumps for pumping wastewater.

PA-VE pumping stations and device chambers

MELTEX manufactures PA-VE pump stations for both property and municipal engineering needs. PA-VE small pump stations are suitable as wastewater pump stations for properties in areas where gravity sewers cannot be used. The tanks of the pump stations are manufactured using rotational molding technology from environmentally friendly, recyclable, lightweight, and durable polyethylene. All pump stations can be customized according to plans.

Oil- and grease separators

Oil and sand separation chambers are used, for example, as floor drains in garages and sheds. Oil and sand separation chambers separate sand and other solid materials as well as oil from water before it is drained. MELTEX oil and sand separation chambers meet the requirements of the D1 building code collection.

HYDRANTS

In MELTEX's selection, you will find high-quality PA-VE and Kalvi water and fire hydrants for various water distribution needs. Water and fire hydrants are essential elements in infrastructure that ensure efficient water distribution and safety in case of fire. With us, you will find a wide range of high-quality water and fire hydrants designed to be durable and reliable under various conditions. The products are made from high-quality materials that withstand extreme weather conditions and mechanical stress. This ensures a long service life and reliable operation. The water and fire hydrants are also easy to use and quick to install, saving time and effort on projects. We offer various water and fire hydrants for different applications. The water hydrants are designed for urban infrastructure and provide reliable water distribution. Fire hydrants are crucial for firefighting, as they provide quick access to water in emergencies.

Hydrants

PA-VE and Kalvi water hydrants for various water distribution needs. The self-draining and insulated pipe structure of the hydrants ensures reliable operation even in Finnish winters.

HEAT AND WATER

DRAINAGE PIPES AND PARTS

Sewer pipes and fittings are used for wastewater and rainwater drainage. Our products are made from durable materials that withstand mechanical stress and chemical effects. The sewer pipes and fittings also feature excellent sealing, preventing leaks and environmental contamination. Installation is easy and quick, saving time and effort on your projects. In our selection, you will find various sewer pipes and fittings for different applications. We offer PVC and PE pipes, connectors, elbows, T-joints, and other necessary parts that complement your drainage system. We also provide specialty products designed for specific needs and requirements.

Drainage pipes and parts, dB

SiTech+ sewer system products are made from mineral-reinforced polypropylene (PP). The extremely durable system dampens sound and is even easier to install than usual. Due to the flexible combination possibilities of the system products and push-fit sockets, SiTech+ is a perfect "connect and use" solution for property drainage. The quality of living is an important value in building design. Reducing the noise caused by sewer systems improves the comfort of end-users in both homes and workplaces. The SiTech+ system meets current building regulations and makes buildings more comfortable and of higher quality.

HT- pipes

Meltex sewer pipes and parts for property sewerage and ground sewers for both wastewater and rainwater. Property sewer pipes and parts are used as wastewater and rainwater sewers inside buildings, in the base slab, and under it, as well as outside the foundation installed in the ground as a plot sewer. Ground sewer pipes are used as gravity sewers for rainwater and wastewater drainage when installed in the ground.

Drainage pipes and parts, Cast iron

Cast iron sewer pipes and fittings are used for wastewater and rainwater drainage. Cast iron sewers are manufactured according to the European EN877 standard and are CE-marked. Cast iron sewer pipes and fittings are socketless and epoxy-coated throughout. When connecting pipes and fittings, CE-marked coupling clamps are used.

SERVICE WATER AND HEATING PIPES

STF-approved pre-sheathed and unsheathed PE-Xc sani- and rad pipes for domestic water and heating systems. Our range also includes corrugated installation pipes and all other accessories for the smooth installation of pex pipes. For implementing underfloor heating systems, our range includes PE-RT, PE-X, and composite pipes, and all system accessories from distribution centers to room thermostats.

Copper pipes

Seamless Yorkshire® copper pipes approved by STF can be used in cold and hot water distribution systems and warm water heating systems for floor, wall, and ceiling installations. Copper pipes can also be used for the distribution of gaseous and liquid fuels used in homes, the distribution and removal of wastewater and other liquids and gases, fire suppression systems, and pressure and vacuum systems. Chromed copper pipes are used for surface installations in washrooms.

Composite pipes

STF-approved Alpex-duo® composite system suitable for domestic water, heating, and cooling pipe installations. Composite fittings are available in brass and PPSU plastic-bodied press and push fittings. Water damage-protected and high-quality products Roth Alu-LaserPlus® is a high-quality, laser-welded composite pipe system for domestic water, heating, and cooling systems. The pipe and PPSU components are manufactured in Roth's own factories in Germany. The system's Roth PressCheck® fittings do not pass the pressure test if they have not been pressed – preventing a common installation error. The outermost layer of the pipe is glossy white PE plastic, making it easy to keep clean. The product range also includes the specially surface-mounted grey Roth Alu-LaserPlus® onWall 16 pipe. The stylish grey composite pipe is a cost-effective and easy solution for surface installations on dark wall surfaces. System warranty 10 years.

Roth MultiPex

Roth MultiPex® pipe system for domestic water and heating installations The connection system includes a wall box and a manifold with push fittings that can be easily connected without tools. The connections can also be detached if necessary. Of course, traditional PX fittings can also be used with Roth MultiPex® pipes. The pipe system includes numerous components that simplify and enhance pipe installation. NORDTEST NT VVS 129 is a common Nordic test method for "pipe-in-pipe" systems. Pipes, installation pipes, wall boxes, wall penetrations, manifold cabinets, etc., are tested as a system in which all components work together to form a complete "pipe-in-pipe" system. The cabinet and all penetrations must be watertight so that any potential leaks are directed back to the cabinet's drainage pipe or to a space with a floor drain. The system must also be replaceable according to the Nordtest method. By installing the system, you can easily reduce the risk of water damage.

PIPE COUPLERS, SERVICE WATER AND HEATING

Pipe fittings are essential components that enable safe and efficient transport of liquids in drinking water and heating systems. Pipe fittings provide high-quality and durable solutions that ensure optimal performance in various applications. Pipe fittings connect pipes safely and effectively, allowing the transport of liquids and gases within the system. A good connection prevents leaks and ensures that the flow remains steady and continuous. Pipe fittings are designed to withstand various operating conditions and pressures, making them a reliable choice for all systems.

Press fitting parts, Copper

Sanha® -Press and PURAPRESS® copper press fittings are tested and approved by European certification bodies. Copper press fittings are suitable for domestic water and heating installations and can be used with all EN 1057 standard copper pipes commonly in use, including in gas and solar energy systems. The Sanha® -Press product line is simple and safe to use in both residential and industrial buildings. Sanha® -Press fittings are also available in chrome-plated versions, which offer a neat and hygienic solution for visible installations, such as in bathrooms. Neat and Hygienic: Press fittings have minimal dirt-collecting edges. The shiny chrome surface of chrome-plated press fittings is easy to keep clean. Fast and Reliable Installation: Press technology is a reliable method that offers fast and secure installation. The press fitting is tight immediately after the first press and requires no post-treatment. Universal Press Type: Sanha® press fittings are of a universal press type, meaning they can be pressed with all available press profiles on the market made for press fittings (V, M, and SA profiles). Therefore, Sanha® universal press fittings are a simple and hassle-free option for the installer! Economical Option: Press technology is a quick installation method that reduces installer working time and requires no additional inspections after the pressure test. This makes press technology the most economical option.

Press fitting parts, Galvanized

Galvanized press fittings for connecting welded steel pipes and finishing pipe systems. The Sanha® Therm product range offers a complete selection of fittings with the usual Sanha® quality. Galvanized coating provides reliable protection against external corrosion for decades. Press fittings are also suitable for sprinkler installations as they are VdS approved. Electro-galvanized steel is not recommended for use in drinking water installations.

Pipe parts and flanges, carbon steel

Carbon steel pipe fittings and flanges are used to connect welded steel pipes. You can find elbows, tees, reducers, and end caps for various installations among the pipe fittings. Flanges are threaded or lap-joint flanges.

Compression fitters

Compression fittings for quick and secure installation of PEX and copper pipes, including connecting, extending, angling, or transitioning to threaded connections. The nut in compression fittings tightens the compression rings firmly around the pipe and slightly compresses the pipe.

Composite Parts Roth

Roth PressCheck® fittings Roth PressCheck® fittings are designed for use with Roth Alu-LaserPlus® composite pipes. Use Roth press jaws during installation. PPSU fittings PPSU is a lightweight and durable plastic that resists all forms of corrosion. The inner surface of the fittings is smooth and designed to minimize pressure losses. Roth PressCheck® fittings do not pass the pressure test if they have not been pressed – preventing a common installation error. Roth PressCheck® PPSU fittings are manufactured in Roth's own factories in Germany. Brass fittings The component is made of dezincification-resistant brass. Roth PressCheck® fittings do not pass the pressure test if they have not been pressed – preventing a common installation error. System warranty 10 years.

Air and water heat pumps

An air-to-water heat pump is a modern and energy-efficient way to heat your home or cabin and produce hot water in an environmentally friendly manner. It utilizes the thermal energy from outdoor air and transfers it to the heating system, significantly reducing energy costs compared to traditional heating methods. Air-to-water heat pumps provide an economical and eco-friendly option that ensures a comfortable indoor temperature year-round. The air-to-water heat pump collects heat from the outside air and transfers it via water to the home's heating system, such as underfloor heating or radiators. At the same time, it can produce hot water for domestic use, making it an effective and flexible solution for various heating needs.

600680	Pipe QsanTec 800×63mm	1.0	pcs

Insulated copper pipes

High-quality copper pipe designed for heat pump installations. Soft and easy to work with, made of solid, annealed copper deoxidized with phosphorus. Material composition: minimum 99.90% copper, phosphorus content 0.015–0.040%. Tensile strength 205 N/mm², elongation ≥40%. The pipe is insulated with chemically cross-linked polyethylene foam with 30x expansion. • Thermal conductivity: 0.043 W/mK • Tensile strength (insulation): 24.5 N/cm² • Water absorption: 0.01 g/100 cm² • Water vapor permeability: 10 ng/m²/s/Pa • Temperature range: –40 °C to +120 °C • Fire classification: B-s3, d2 (EN 13501-1)

Product code	Product name	pcs/package	Unit

600095	"Twin copper pipe Entrade QsanTec 3/8" x 5/8" 20	1.0	bx

FLOOR HEATING

The underfloor heating system is an invisible heating solution that gives interior designers the freedom to implement their own interior and spatial design wishes. With room-specific thermostats for underfloor heating, you can easily set the desired temperatures for different rooms. When installed correctly by a professional, an underfloor heating system is completely maintenance-free. Water-circulating underfloor heating is independent of the heat production system, allowing you to switch to rapidly developing energy and environmentally friendly solutions in the future. For the heat source, you can choose the most suitable option for you at this time: district heating, geothermal or air-to-water heat pump, solar energy, oil, gas, wood, pellet, or chip heating, without forgetting electric heating. Lowering the indoor temperature saves energy and the environment. Our underfloor heating system distributes heat evenly throughout the room.

VALVES

Oras, TA, Danfoss, and Honeywell control and radiator valves for heating systems.

Control valves

Pressure regulating and pressure relief valves are essential components that ensure the accuracy and stability of pressure for liquids and gases in piping systems. They protect systems from overpressure and ensure that pressure remains optimal under various operating conditions. Pressure regulating and pressure relief valves provide high-quality and durable solutions suitable for many different applications. Pressure regulating valves maintain the set pressure by automatically closing or opening the valve based on the pressure. Pressure relief valves, on the other hand, close when the system pressure exceeds the set level, preventing the occurrence of overpressure. These valves work together to ensure that the system operates safely and efficiently.

Pressure regulating and pressure reducing valves

"Pressure regulating and pressure relief valves are essential components that ensure the accuracy and stability of pressure for liquids and gases in piping systems. They protect systems from overpressure and ensure that pressure remains optimal under various operating conditions. Pressure regulating and pressure relief valves provide high-quality and durable solutions suitable for many different applications. Pressure regulating valves maintain the set pressure by automatically closing or opening the valve based on the pressure. Pressure relief valves, on the other hand, close when the system pressure exceeds the set level, preventing the occurrence of overpressure. These valves work together to ensure that the system operates safely and efficiently.

Product code	Product name	pcs/package	Unit
461300	Pressure reducing valve DN15 (1.5-6 bar) max 40°C	1.0	pcs
461305	Pressure reducing valve DN20 (1.5-6 bar) max 40°C	1.0	pcs
461310	Pressure reducing valve DN25 (1.5-6 bar) max 40°C	1.0	pcs
461315	Pressure reducing valve DN32 (1.5-6 bar) max 40°C	1.0	pcs
461320	Pressure reducing valve DN40 (1.5-6 bar) max 40°C	1.0	pcs
461325	Pressure reducing valve DN50 (1.5-6 bar) max 40°C	1.0	pcs

3-way valves

3-way valves are an extremely important component that allows for the directing of liquids and gases in multiple directions within piping systems. They provide flexibility and efficiency, enabling precise flow control for various applications. 3-way valves combine innovative design with durability, ensuring reliable performance across many industries. 3-way valves operate by directing flow between three different connections. The valve can open and close automatically based on pressure and flow, allowing for precise control and adjustment in various system conditions. This makes them ideal for use in complex systems where flow control is critical.

Magnet valves

Solenoid valves are advanced components that enable precise and reliable control of liquid and gas flow. They utilize an electromagnetic operating principle that allows for rapid and efficient opening and closing. Solenoid valves provide high-quality and durable solutions for various industries and applications. Solenoid valves operate under the influence of an electromagnetic field that automatically opens or closes the valve. When electric current flows through, the valve opens, allowing liquid or gas to flow. When the current is interrupted, the valve closes, preventing backflow. This automatic action ensures efficiency and safety.

Product code	Product name	pcs/package	Unit
463525	1/2 Solenoid valve L133B07 0-10 Bar	1.0	pcs

Non-return valves

Check valves are vital components that prevent liquids or gases from flowing in the wrong direction within piping systems. They protect the systems from damage and ensure that processes operate efficiently and safely. Check valves offer high-quality, durable, and reliable solutions suitable for various industrial and residential applications. Check valves operate automatically by opening and closing according to pressure. When a liquid or gas flows in the correct direction, the valve opens, and when the flow reverses, the valve closes, preventing backflow. This ensures that the system operates safely and efficiently.

Radiator valves

Radiator valves and thermostats are essential for adjusting the indoor temperature of your home, office, or cabin to the perfect level. High-quality radiator valves and thermostats provide user-friendly and precise solutions that allow you to optimize heating efficiency and enhance living comfort. Innovative design and durable materials ensure reliable operation and a long lifespan.

Dirt separators an bottom valves

Sediment separators and bottom valves are essential components that ensure efficient water management in various systems. They prevent dirt, sediment, and other impurities from entering the water systems, ensuring clean and safe water use. The products are designed to withstand challenging conditions and provide reliable performance for both industrial and domestic applications.

462170	Automatic air valve Flexvent 10bar, 120°C, 1/2	1.0	pcs

Safety valves

Relief valves are a key component of safe and efficient heating and cooling systems. They protect the system from overpressure, preventing damage and ensuring that equipment operates optimally under all conditions. Relief valves are designed to meet strict quality standards and provide long-term reliability in both industrial and household applications. A relief valve opens automatically when the system pressure exceeds the set limit, safely releasing excess pressure. This protects equipment and piping from damage caused by overpressure. When the pressure returns to normal levels, the valve automatically closes, restoring the system's normal operation.

Product code	Product name	pcs/package	Unit
451700	1/2 Safety valve 1.5 bar	1.0	pcs

INSULATORS FOR HEATING AND WATER SYSTEMS

Insulations for pipes and air ducts. LV insulation is an essential component that provides effective thermal insulation and energy savings in various applications. We offer a wide range of high-quality LV insulation products designed to withstand demanding conditions and ensure reliable performance. The insulation is made from advanced materials that provide excellent thermal insulation and reduce energy losses.

Insulation pipe sections

Insulation channels provide an excellent solution for insulating piping systems, helping to improve energy efficiency and protect the pipes from external damage. Specifically designed for demanding environments, Insulation channels combine durable materials with innovative design.

Product code	Product name	pcs/package	Unit

151545	60/9 PE-pipe insulation L=2m	66.0	m
151550	76/9 PE-pipe insulation L=2m	48.0	m
151560	114/13 PE-pipe insulation L=2m	22.0	m

Installation supplies

Product code	Product name	pcs/package	Unit
150500	Kaiflex glue 660g (for foam rubber)	1.0	pcs
151120	Cell foam adhesive NMC FIX Kleber 0.25L with brush	1.0	pcs
151130	Cell foam tape NMC Insul Tape 3mm x 50mm x15m	1.0	pcs
150485	Kaiflex EF tape 3mm x 50mm x 15m	12.0	rl

HEATING SYSTEMS

Modern heating systems provide energy-efficient and environmentally friendly options that keep your home warm during the winter frost and produce hot water comfortably all year round. Heating systems are designed to meet today's heating needs, combining efficiency, comfort, and ecological sustainability. Whether it's a new build or a renovation project, you can find the right solution for heating your home or cabin with us. Choosing the right heating system depends on various factors, such as the size of the building, energy availability, and personal preferences. Whatever your needs may be, Meltex helps you find the suitable solution that meets your heating requirements without compromising on energy efficiency and comfort.

Drying racks, water based

Drying racks, water-operated

FLS light rail system

The Fischer FLS light rail system is suitable for quick and efficient installation of piping lines and support structures. The system includes high-quality rails and installation components for the rail system. With the FLS light rail system, horizontal and vertical installations can be carried out cost-effectively and safely. Thanks to the modular structure of the rail system and the pre-assembled structural and connection parts, the FLS system is easy and quick to install.

HOSES AND COUPLERS

Claw couplings, hoses, and fittings for irrigation as well as air hoses and cast iron claw couplings for air hoses

Water hoses

Water and fire hoses for various construction needs and professional use.

Product code	Product name	pcs/package	Unit
490645	Fire protection hose 50mm no ends 20m	20.0	m

Compressed air hoses

Compressed air hoses for many applications.

Product code	Product name	pcs/package	Unit
490600	Air hose 19mm 15bar / a40m	1.0	m
490605	Air hose 25mm 15bar / a40m	1.0	m
490615	Air hose 50mm 15bar / a40m	1.0	m
490625	Air hose 25mm PT flat 30bar / a60m	1.0	m
490630	Air hose 52mm PT flat 20bar / a60m	1.0	m
490635	Air hose 75mm PT flat 16bar / a60m	1.0	m

Drain hoses

Discharge hoses for water drainage.

Product code	Product name	pcs/package	Unit
490650	Drain hose plastic 38mm 50m/roll	1.0	m
490655	Drain hose plastic 50mm 50m/roll	1.0	m
490665	Drain hose plastic 75mm 50m/roll	1.0	m
490670	Drain hose plastic 100mm 50m/roll	1.0	m
490675	Drain hose plastic 150mm 50m/roll	1.0	m

Plastic hoses

Plastic hoses for irrigation and water transfer in both industry and households.

Product code	Product name	pcs/package	Unit
490510	Plastic hose IV 6mm (50 m/roll)	1.0	m
490515	Plastic hose IV 9mm (50 m/roll)	1.0	m

VENTILATION

IV-INSULATORS

Insulation sheets and mats made from rock wool and elastomeric foam for thermal insulation.

Wool

Insulation mats for thermal and condensation insulation in ventilation systems. Mesh mats and rock wool insulations for fireproofing air ducts.

Product code	Product name	pcs/package	Unit
150781	Ventilation mat Rockwool Klimarock 50mm 1x7m 7m2	7.0	m2
150782	Ventilation mat Rockwool Klimarock 100mm 1x4m 4m2	4.0	m2
150785	Fireproof mat Rockwool EI30 50mm 4,5m2	4.5	m2
150786	Rockwool Conlit Firemat EI60 70mm 2,5m2	2.5	m2
150787	Fireproof mat Rockwool EI60 80mm 2,5m2	2.5	m2

151413	IV fire protection grid Knauf EI120 100mm 900x2500	20.25	m2
151415	Lamella mat Knauf Alu 25mm 1200x8000 9,6m2	115.2	m2
151417	Lamella mat Knauf Alu 30mm 1200x8000 9,6m2	115.2	m2
151419	Lamella mat Knauf Alu 50mm 1200x5000 6m2	72.0	m2
151421	Lamella mat Knauf Alu 100mm 1200x2500 3m2	36.0	m2
151407	IV fire protection grid mat Knauf EI30 40mm 900x50	40.5	m2
151409	IV fire protection grid mat Knauf EI30 60mm 900x35	28.35	m2
151423	Ventilation mat Knauf RL 30mm 1200x1100 13.2m2	198.0	m2
151425	Ventilation mat Knauf RL 50mm 1200x6700 8.04m2	120.6	m2
151427	Ventilation mat Knauf RL 100mm 1200x3300 3.96m2	59.4	m2

Channel insulators

Insulation channels provide top-quality insulation for your ventilation systems, enhancing energy efficiency and reducing heat loss. Specifically designed for demanding environments, insulation channels combine durable construction with innovative design.

Product code	Product name	pcs/package	Unit
150921	Plastic-coated HVAC insulation sock 200mm, 100mm x	1.0	pcs
150915	Plastic-coated HVAC insulation sock 100mm, 100mm x	1.0	pcs
150917	Plastic-coated HVAC insulation sock 125mm, 100mm x	1.0	pcs
150919	Plastic-coated HVAC insulation sock 160mm, 100mm x	1.0	pcs
150985	NMC IV-Cellular rubber elbow 100/90°/19	1.0	pcs

150982	NMC IV-Cellular rubber elbow 200/45°/19	1.0	pcs
150905	Plastic-coated HVAC insulation sock 100mm, 50mm x	30.0	pcs
150909	Plastic-coated HVAC insulation sock 160mm, 50mm x	24.0	pcs
150911	Plastic-coated HVAC insulation sock 200mm, 50mm x	20.0	pcs
150907	Plastic-coated HVAC insulation sock 125mm, 50mm x	30.0	pcs
150913	Plastic-coated HVAC insulation sock 250mm, 50mm x	12.0	pcs
150375	169-19-45 IV-insulation elbow K-Flex	1.0	pcs

Cellular rubber

Elastomeric foam insulation sheets for air duct insulation, cold and heat insulation, and potable and wastewater insulation. When tightly installed around the pipe, elastomeric foam insulation effectively prevents condensation and corrosion, extending the lifespan of the underlying pipe.

Product code	Product name	pcs/package	Unit
150476	Kaiflex STplus roll 13mm (8m2)	8.0	m
151100	Foam sheet NMC 13mm 11m2, without adhesive	1.0	m
151105	Foam sheet NMC 19mm 8m2, without adhesive	1.0	m
151110	Foam sheet NMC 13mm, with adhesive (11m2)	1.0	m
151115	Foam sheet NMC 19mm, with adhesive (8m2)	1.0	m

SPIRAL DUCTS AND PARTS

Ventilation and indoor air solutions for all types of building requirements. The duct system includes round ducts and components, as well as rectangular ducts for industrial needs to implement an effective ventilation solution.

Spiral ducts

Round ventilation ducts

Product code	Product name	pcs/package	Unit
505703	80 Ventilation duct 3m, spiral seam	561.0	m
505705	100 mm ventilation duct 3 m, spiral	378.0	m
505710	125 mm ventilation duct 3 m, spiral	252.0	m
505715	160 mm ventilation duct 3 m, spiral	153.0	m
505720	200 mm ventilation duct 3 m, spiral	90.0	m
505725	250 mm ventilation duct 3 m, spiral	60.0	m
505730	315 mm ventilation duct 3 m, spiral	36.0	m
505740	500 Ventilation duct 3m, spiral seam	1.0	m
505745	630 Ventilation duct 3m, spiral seam	3.0	m

Butterfly valves

Backdraft dampers are excellent solutions that enhance the efficiency and safety of ventilation systems. We offer a wide range of backdraft dampers designed to prevent backflow of air and ensure optimal ventilation for all applications. These products are particularly suitable for industrial, commercial, and residential buildings. Backdraft dampers operate on a simple yet effective principle: they prevent reverse airflow and improve the functionality of the ventilation system. They ensure that fresh air can flow into the spaces without obstacles while preventing harmful gases and pollutants from re-entering.

LTO- DEVICES AND PIPING FANS

Heat recovery devices (HRV) and duct fans are key components in an efficient ventilation system. They provide an excellent way to improve indoor air quality, reduce energy consumption, and ensure adaptable ventilation for various applications. We offer a comprehensive range of HRV devices and duct fans designed to maximize efficiency and durability. HRV devices collect and recover heat from the used indoor air, which is transferred to the fresh outdoor air. This process reduces energy waste and ensures that the spaces remain adaptable and comfortable. Duct fans, on the other hand, ensure efficient air distribution throughout the building, improving the consistency and effectiveness of the ventilation.

Vallox

Vallox is a renowned brand that offers high-quality ventilation and air treatment units. We provide a comprehensive selection of Vallox products designed to improve indoor air quality, energy efficiency, and user comfort. Vallox's innovative solutions are suitable for both residential buildings and commercial spaces, offering reliable and effective options for ventilation systems. Vallox ventilation and air treatment units are based on innovative technology that ensures efficient ventilation and optimal temperature control. The products enhance air quality, reduce humidity, and prevent mold growth, making them an excellent choice for residential buildings, offices, and industrial environments.

Airfi

Airfi is a pioneer in ventilation and air conditioning solutions, focusing on efficiency and user-friendliness. We offer a wide range of Airfi products designed to improve indoor air quality and energy efficiency. Airfi's products are suitable for both industrial and residential properties, providing reliable and innovative options for ventilation systems. Airfi's ventilation and air conditioning solutions are based on innovative technology that ensures efficient ventilation and optimal temperature control. The products enhance air quality, reduce humidity, and prevent mold growth, making them an excellent choice for residential buildings, offices, and industrial environments.

ROOF PASS-THROUGHS AND EXHAUST VENTILATION PIPES

Easily to the top of ventilation! Tight, efficient, stylish. These three qualities define how MX ventilation products finalize the exhaust ventilation of buildings. MX ventilation products are a product line of ventilation and roof accessories manufactured by Meltex in Finland, offering solutions for stylish and efficient finishing of building exhaust ventilation. The product family includes roof penetrations, exhaust pipes, ventilation pipes, roof fans, roof hatches, and crawl space ventilation poles.

Roof penetrations

MX roof penetrations for steep roofs! MX roof penetrations fit excellently with the most common steep roofing materials. With MX penetrations, exhaust and ventilation pipes, as well as roof fans, can be passed through the roof tightly and stylishly. The penetrations are compatible with all Meltex roof fans and exhaust and ventilation pipes. The design of the penetrations prevents the accumulation of dirt and debris and leaves enough space for insulation. The guide groove on the penetration plates automatically adjusts the lateral alignment of the installed pipes. All penetrations are quick to install.

Exhaust ventilation pipes

MX exhaust pipes are suitable for outdoor air exhaust diffusers of air conditioning units. Due to the low pressure loss of the exhaust pipes, the exhaust air is effectively removed from the building without unnecessarily burdening the AC unit.

Product code	Product name	pcs/package	Unit
499300	MX-exhaust ventilation pipe 125, black	12.0 / lava	pcs

Rivets, screws, nuts and washers

Fastening and installation materials are a crucial part of construction and renovation projects, and at Meltex, you will find a comprehensive selection of high-quality products that ensure reliable and durable connections. Our products are designed to withstand the stresses of use and provide long-lasting performance. Our range includes all the necessary fastening and installation materials, such as rivets, screws, nuts, washers, and other accessories.

FLS light rail system

The Fischer FLS light rail system is suitable for quick and efficient installation of piping lines and support structures. The system includes high-quality rails and installation components for the rail system. With the FLS light rail system, horizontal and vertical installations can be carried out cost-effectively and safely. Thanks to the modular structure of the rail system and the pre-assembled structural and connection parts, the FLS system is easy and quick to install.

CASTING- AND REINFORCEMENT PRODUCTS

Pouring and reinforcement products for implementing concrete castings and installing elements.

Reinforcement supports and stands

Reinforcement supports are used when casting on a soft base, such as sand or insulation. The wide base flange ensures that the reinforcement supports do not break the moisture barrier. The protection distances of the reinforcement supports are 25 – 50 mm, and they are available in different heights. The need for ground clearance spacers in casting is approx. 4-6 pcs/m².

704250	Spacer H2040 - 30 / 700 pcs	1.0	bag
704255	Spacer H2040 - 25 / 35 / 700pcs	1.0	bag
704260	Spacer H2040 - 40 / 500 pcs	1.0	bag
704265	Spacer H2040 - 50 / 500 pcs	1.0	bag
704270	Spacer H2040 - 60 / 500 pcs	1.0	bag
704262	Spacer H2040 - 45 / 500pcs	1.0	bag
723855	Reinforcement hook mounted	0.0	pcs

Injection hoses and accessories

Meltex's domestic injection products can seal the voids and micro-cracks in concrete casting joints to make them watertight. Post-injection can seal leaks caused by structural movement or other reasons in the casting joint.

Product code	Product name	pcs/package	Unit
705315	Coupling sleeve TOP IN	0.0	m
705325	Feed hose reservation box + cover	0.0	pcs
705305	Feed hose TOP IN	0.0	m
705310	Hose clamp TOP IN 100 pcs / bag	0.0	bg
705320	Shrink connection TOP STAR 10 cm	0.0	pcs
705295	Injection hose TOP STAR + instructions	0.0	m
705330	Injection epoxy BI 1 kg 2-component	0.0	pcs

Tank spacers

Bar spacers for facilitating and speeding up reinforcement work. The mesh is easy to attach to the bar spacer, allowing work reinforcements to be replaced with bar spacers.

Product code	Product name	pcs/package	Unit
704384	Tank spacer ZZ 20 A 100m / bundle	100.0	m
704385	Rod spacer ZZ 25 A 100m / bundle	1.0	m
704390	Rod spacer ZZ 30 A 100m / bundle	1.0	m
704395	Rod spacer ZZ 35 A 80m / bundle	1.0	m
704400	Rod spacer ZZ 40 A 80m / bundle	1.0	m
704405	Rod spacer ZZ 45 A 80m / bundle	1.0	m
704635	Snake spacer 70mm, 50m / bundle	1.0	bdl
704640	Snake spacer 100mm, 50m / bundle	1.0	bdl

Column spacers

Standard hoops for casting and rebar work.

Product code	Product name	pcs/package	Unit
704175	Standard ring NV 4-12/30 1500 pcs	1.0	bag
704180	Standard ring NV 6-8 /35 1000 pcs	1.0	bag
704190	Standard ring NV 10-12 / 40 / 800 pcs	1.0	bag

Insulation brackets

Insulation fasteners and nails for attaching insulation.

Product code	Product name	pcs/package	Unit
439415	Insulation nail 200 / 500 pcs	1.0	bag
439405	Insulation nail 150 / 800 pcs	1.0	bag
439400	Insulation nail 100 / 1000 pcs	1.0	bag
439410	Insulation nail 125 / 1000 pcs	1.0	bag
437945	Insulation fastener EKB 10x90 / 250 pcs	1.0	bx
437950	Insulation fastener EKB 10x110 / 250 pcs	1.0	bx
437955	Insulation fastener EKB 10x130 / 250 pcs	1.0	bx
437965	Insulation fastener EKB 10x150 / 250 pcs	1.0	bx
437970	Insulation fastener EKB 10x170 / 250 pcs	1.0	bx
437975	Insulation fastener EKB 10x190 / 250 pcs	1.0	bx
437985	Insulation fastener screwable 110 250 pcs/box	1.0	bx
437990	Insulation fastener screwable 150 250 pcs/box	1.0	bx
437995	Insulation fastener screwable 200 250 pcs/box	1.0	bx
438000	Tool for screwable insulation fastener	0.0	pcs
440220	Insulation plug fischer TermoZ CS II 8/195 100/pac	1.0	bx
440221	Insulation plug fischer TermoZ CS II 8/235 100/pac	1.0	bx
440222	Insulation plug fischer TermoZ CS II 8/295 100/pac	1.0	bx
440223	Insulation support fischer DHK 100 250/pac	1.0	bx
440224	Insulation support fischer DHK 160 100/pac	1.0	bx
440225	Insulation support fischer DHK 200 100/pac	1.0	bx
440226	Insulation support fischer DHM 210 A2 25/pac	1.0	bx
440227	Insulation support fischer DHM 260 A2 125/pac	1.0	bx
440228	Insulation support fischer DHM 210 125/pac	1.0	bx
440229	Insulation support fischer DHM 260 125/pac	1.0	bx

Product code	Product name	pcs/package	Unit
440230	Insulation disc fischer DTM 80 250/pac	1.0	bx
440231	Insulation disc fischer DTM 70/10 50/pac	1.0	bx
440232	Insulation disc fischer DTM 60/10 A4 100/pac	1.0	bx

705390	Form bolt KV 23-20-23	1.0	pcs
705395	Form bolt KV 23-25-23	1.0	pcs
705400	Form bolt KV 23-30-23	1.0	pcs
705405	Form bolt KV 23-35-23	1.0	pcs
705410	Form bolt KV 23-40-23	1.0	pcs
704170	Tensioner for clamp standard	10.0	pcs
704165	Clamp standard	50.0	pcs

Warning plugs

Warning caps for rebar ends as warning markers to prevent damage to protective covers and improve work safety.

Product code	Product name	pcs/package	Unit
704450	Warning plug 8-16mm a250 pcs	1.0	
704455	Warning plug 16-32mm a100 pcs	1.0	bg

Cast sleeves and flanges

Casting sleeves and flanges for supporting formwork panels and ensuring the straightness and correct wall thickness of formwork surfaces.

Product code	Product name	pcs/package	Unit
704435	Casting cone VHK 26, black	0.0	bag
704430	Casting sleeve VHR 26	0.0	m
704440	Casting cone VHK 2635, blue	0.0	bag
704445	Casting flange VHL 18	0.0	bag
704420	Casting sleeve VH 18	0.0	m

Expansion joint tapes and grilles

Domestic TOP expansion joint tapes for sealing watertight concrete casting joints. PVC expansion joint tapes are made from raw materials that meet the requirements of standard SFS 3919.

Product code	Product name	pcs/package	Unit
704415	Construction joint mesh 60 x 250 cm	20.0	pcs
705235	Expansion joint tape TOP 6 + instruction	0.0	m
705240	Expansion joint tape TOP 8 + instruction	0.0	m
705245	Expansion joint tape TOP PL 8 + instruction	0.0	m
705250	Expansion joint tape TOP IN 9 + instruction	0.0	m
705255	Expansion joint tape TOP 10 + instruction	0.0	m
705260	Expansion joint tape TOP PL 10 + instruction	0.0	m
705265	Expansion joint tape TOP PL 11 + instruction	0.0	m
705270	Expansion joint tape TOP 13 + instruction	0.0	m
705275	Expansion joint tape TOP U 108 + instruction	0.0	m
705280	Expansion joint tape TOP T 115 + instruction	0.0	m
705290	Tape fastener TOP k 100 pcs / bag	0.0	bg
705430	Joint soldering iron	0.0	pcs

Mounting pieces for elementens and plastic wedges

Installation pads for installing hollow core slabs and light and heavy elements.

Product code	Product name	pcs/package	Unit
704465	Chamfer strip VL 10 with wing a 4m	1.0	m
704470	Chamfer strip VL 15 with wing a 4m	1.0	m
704475	Chamfer strip VL 20 with wing a 4m	1.0	m
704480	Chamfer strip VLK 10 triangle a 4m	1.0	m
704485	Chamfer strip VLK 15 triangle a 4m	1.0	m
704100	Mounting piece for element 3 mm, yellow	1.0	pcs
704105	Mounting piece for element 5 mm, red	1.0	pcs
704110	Mounting piece for element 10 mm, blue	1.0	pcs
704115	Mounting piece for element 15 mm, black	1.0	pcs
704120	Mounting piece for element, yellow 3mm	24.0	bag
704125	Mounting piece for element, red 5mm	24.0	bag
704130	Mounting piece for element, blue 10mm	24.0	bag
704135	Mounting piece for element, black 15mm	24.0	bag
704140	Mounting piece for element, heavy, 3x80x120 mm	36.0	bx
704145	Mounting piece for element, heavy, 5x80x120 mm	36.0	bx
704150	Mounting piece for element, heavy, 8x80x120 mm	36.0	bx
704155	Mounting piece for element, heavy, 10x80x120 mm	36.0	bx
704160	Plastic wedge MK 75 1000 pcs	0.0	bx

Bentonite strips and supplies

Bentonite products for sealing in the installation of concrete elements.

Product code	Product name	pcs/package	Unit
705200	Bentonite tape 1/2 61m / box + instr.	1.0	m
705205	Bentonite tape 3/4 40m / box + instr.	40.0	m
705425	Bentonite mass 23 kg (19 L)	0.0	can
705215	HDPE / bentonite DUAL SEAL 1,22 x 7,32 m	0.0	rl
705220	HDPE / bentonite DUAL SEAL LG 1,22 x 7,32 m	0.0	rl

Mold oils and tie wires

Tie wires for rebar work and formwork oils for coating formwork molds.

Product code	Product name	pcs/package	Unit
704375	Tie wire annealed galvanized 1.2 x 450 mm	1.0	bdl
704380	Tie wire annealed galvanized 1.2 x 550 mm	1.0	bdl
704365	Tie wire 1.2 mm x 45 cm 5 kg, copper-coated	1.0	bdl
704370	Tie wire 1.2 mm x 55 cm 5 kg, copper-coated	1.0	bdl
150740	Side wire 0.9mm 175G spool	0.0	pcs
432230	Side wire 150x1.25mm 250 pcs/bundle	1.0	bdl
432235	Side wire roll MAX XXL 0.8 mm	50.0	pcs
728000	Form oil 20 L container	1.0	pcs
728010	Form oil sprayer 405T 5 L	0.0	pcs
728015	Form oil sprayer 5 L plastic	0.0	pcs

Masonry containers

Bricklaying and water containers are made of durable polyethylene, and they withstand bumps and rough handling better than regular buckets. Therefore, they are well-suited for demanding construction conditions, such as making mortar. Bricklaying containers come in various sizes according to use. The smallest containers have convenient metal handles that can withstand the transport of heavy goods.

Product code	Product name	pcs/package	Unit
717800	Masonry bucket 12 liters with handle	900.0	pcs
717805	Masonry bucket 20 liters with handle	480.0	pcs
717810	Masonry bucket 40 liters with handle	200.0	pcs
717825	Masonry bucket 65 liters rectangle	240.0	pcs
717815	Masonry bucket 40 liters without handle	260.0	pcs
717820	Masonry bucket 65 liters	120.0	pcs
717830	Masonry bucket 90 liters	120.0	pcs

Chemical fasteners

Chemical fasteners are a solution for securing very heavy loads in concrete, lightweight concrete, or brick without expansion. fischer possesses unique expertise in the development and manufacturing of chemical solutions. Thanks to this, optimal and reliable solutions are available for all applications, even under extreme conditions on construction sites, such as moisture, cold, or heat. These include approved capsule systems, injection mortars, threaded rods, internally threaded rods, anchor sleeves, and accessories.

Product code	Product name	pcs/package	Unit
440237	Threaded rod fischer RG M8x110 5.8 Zn 10/pac	1.0	bx
440238	Threaded rod fischer RG M10x130 5.8 Zn 10/pac	1.0	bx
440239	Threaded rod fischer RG M12x160 5.8 Zn 10/pac	1.0	bx

701205	Soudal - Soudafix VE400-SF	12.0	pcs
726115	Blow-out pump Fischer AB G red 1pcs	1.0	pcs
726100	Cleaning and fastening kit Fischer FIS CC	1.0	pcs
726105	Dispenser Fischer FIS DM S Pro	1.0	pcs
726110	Battery dispenser Fischer FIS DB S Pro	1.0	pcs
726065	Professional Sealant Gun Blister	12.0	pcs
726070	HEAVY DUTY SKELETON GUN	12.0	pcs
726075	JOINTS - Firestop caulking gun 380ml 2K	1.0	pcs

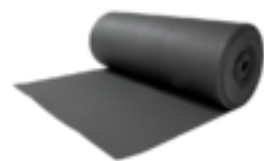

CELLULAR PLASTIC PRODUCTS

Foam strips and mats for sealing and insulation.

Frost and thaw mats

Frost and ground mats for concrete and ground insulation and protection.

Product code	Product name	pcs/package	Unit
706845	Cell PE 10 mm 90kg/m³ 75m²	75.0	m2
706855	Solu PE 15 mm 105m2	105.0	m2
151635	Inseal 5 mm	1.0	m2
151640	Inseal 15 mm	1.0	m2
706820	Frost insulation mat 10 mm x 2,0 m x 50 m	1.0	rl
706810	Frost insulation mat 10 mm x 2 x 50 m	0.0	rl

Seam strips

Release strips for creating expansion joints in floor castings and sound insulation of roof structures.

Product code	Product name	pcs/package	Unit
706100	Seam strip 5,0x100mm a50m	12.0 / pss	rl
706110	Seam strip 5,0x150mm a50m	8.0 / pss	rl
706120	Seam strip 5,0x200mm a50m	6.0 / pss	rl
706125	Seam strip 5,0x300mm a50m	4.0 / pss	rl
706130	Seam strip 5,0x400mm a50m	3.0 / pss	rl
706140	Seam strip 10x100mm a50m	12.0 / pss	rl
706150	Seam strip 10x150mm a50m	8.0 / pss	rl
706155	Seam strip 10x200mm a50m	6.0 / pss	rl
706157	Release strip 10x250mm a50m	8.0	rl
706160	Seam strip 10x300mm a50m	4.0 / pss	rl
706165	Seam strip 10x400mm a50m	3.0 / pss	rl

House seals

Foam strips for baseboards or building seals, for example, between the base and lower guiding wood.

Product code	Product name	pcs/package	Unit
707535	Building insulation 10,0 mm x 200 mm x 50 m	5.0 / pss	rl
707500	Building insulation 6,0 mm x 100 mm x 50 m	10.0 / pss	rl
707505	Building insulation 6,0 mm x 125 mm x 50 m	8.0 / pss	rl
707510	Building insulation 6,0 mm x 150 mm x 50 m	6.0 / pss	rl
707515	Building insulation 6,0 mm x 175 mm x 50 m	5.0 / pss	rl
707520	Building insulation 6,0 mm x 200 mm x 50 m	5.0 / pss	rl
707525	Building insulation 6,0 mm x 250 mm x 50 m	4.0 / pss	rl
707530	Building insulation 6,0 mm x 275 mm x 50 m	3.0 / pss	rl

Element joint tapes

Expansion joint tapes for sealing and insulating concrete joints and expansion joints of elements.

Product code	Product name	pcs/package	Unit
151600	Element joint tape 10mm/600m	1.0	bx
151602	Element joint tape 13 mm / 400m	1.0	bx
151605	Element joint tape 16mm/250m	1.0	bx
151610	Element joint tape 20mm/150m	1.0	bx
151615	Element joint tape 25mm/100m	1.0	bx
151620	Element joint tape 30mm/180m	1.0	bag
151622	Element joint tape 35 mm / 180m length 2m	1.0	bag
151625	Element joint tape 40mm/120m	1.0	bag
151630	Element joint tape 50mm/90m	1.0	bag
151565	Element joint tape 10 mm	1.0	m
151567	Element joint tape 13 mm	1.0	m
151570	Element joint tape 16 mm	1.0	m
151575	Element joint tape 20 mm	1.0	m
151580	Element joint tape 25 mm	1.0	m
151585	Element joint tape 30 mm	1.0	m
151587	Element joint tape 35 mm length 2m	1.0	m
151590	Element joint tape 40 mm	1.0	m
151595	Element joint tape 50 mm	1.0	m

UNDERLAYS AND RIDGE SEALS

Our selection includes underlays for various needs! Underlayment is an essential part of roof structures as it ensures the roof's water tightness. Water or top coverings are usually waterproof, but under varying weather conditions, water and moisture may penetrate through seams or penetrations into the attic. A fully watertight underlay prevents water from penetrating deeper into the structures.

Our selection includes underlays for various needs! Underlayment is an essential part of roof structures as it ensures the roof's water tightness. Water or top coverings are usually waterproof, but under varying weather conditions, water and moisture may penetrate through seams or penetrations into the attic. A fully watertight underlay prevents water from penetrating deeper into the structures.

Product code	Product name	pcs/package	Unit
714515	Turva-safety underlay 60 m² certified, (1,5m x 40m	85.0 / lava	rl
714520	Ventilating roof ridge seal 300mm x 5m, black	4.0 / ltk	rl
714510	MX-Varma - breathable underlay 75m2 (1,5m x 50m)	27.0 / lava	rl

CONSTRUCTION COATS, -PAPERS AND -TAPES

Building plastics, papers, and tapes for construction and renovation.

Plastic films

Plastic films for protection, construction, and renovation.

Product code	Product name	pcs/package	Unit
166120	Tightening film 450mm x 300m	0.0	rl
166185	PE-sleeve 0,05x500mm 10kg/200m	1.0	kg
166100	Euratex AL 1.34x50m	0.0	rl
166295	Vapour barrier plastic Vapor a 25kg, 3x45m (135m2)	39.0	rl

Product code	Product name	pcs/package	Unit
166175	Black plastic film 0,20 mm	25.0	kg
166135	Plastic film 0,05 mm clear	25.0	kg
166140	Plastic film 0,09 mm clear	25.0	kg
166145	Plastic film 0,15 mm clear	25.0	kg
166160	Plastic film 0,30 mm clear	25.0	kg
166130	Plastic film LD 0,5 mm x 5000	0.0	m2
166125	Bubble wrap a 150 m²	150.0	m2
166150	Plastic film 0,2mm, 5kg/rl 3,0m x 23m	250.0	kg
166155	Plastic film 0,2mm, 25kg/rl 3,0m x 45m	25.0 / lava	kg
166105	Vapour barrier plastic film SFS 5,0kg 3 x 9m (27m²)	50.0 / lava	rl
166110	Vapour barrier plastic film SFS 10,0kg, 3x18m (54m²)	50.0	rl
166115	Vapour barrier plastic film SFS 25,8kg, 3x47m (140m²)	40.0 / lava	rl
703310	Painting protection 1,1 x 33m	30.0	rl

Construction papers

Are your papers in order? In our selection, you will find a comprehensive range of construction papers for building and renovation!

Product code	Product name	pcs/package	Unit
701725	MX-Protection board with plastic coat 75m2/rl	25.0 / lava	rl
701715	MX-Air shut-off paper 60m2/rl	33.0 / lava	rl
701705	MX-Aluminum paper 30m2/rl	100.0 / lava	rl
701730	MX-Protection board 75m2/rl	25.0 / lava	rl
701735	MX-Protection board 100m2/rl	50.0 / lava	rl
701700	Corrugated board a 100 m² 1x100 m	0.0	rl
701745	Protection corner 55x55 mm 1,8m	0.0	pcs
701710	MX-Bitumen paper 30m2/rl	100.0 / lava	rl
701740	MX-Wind deflector 900/1200	600.0 / lava	pcs
701720	MX-Renovation protection paper 30m2/rl	100.0 / ltk	rl

Tapes

Tapes for sealing and protection.

Product code	Product name	pcs/package	Unit
703555	HPX PVC orange protective tape 50/33	1.0	pcs
703210	Aluminum colored tape PP 75mmx100m	18.0	pcs
703200	Alu/Butyl tape 50mm x 20m	0.0	rl
703380	Cover tape 50mm/20m black	1.0	rl
703225	Vapour barrier tape 50mm x 25m green DIN 4108-7	12.0 / ltk	rl
703395	Transfer adhesive tape Euratex 40/50	0.0	rl
703430	Tape machine	0.0	pcs

BITUMEN AND RADON PRODUCTS

Bitumen sealing products for moisture and waterproofing. Waterproofing or water pressure insulation is used on the external surface of basements' ground-contacting exterior walls to prevent the harmful penetration of surrounding soil moisture and surface and meltwater into the structure. Depending on the moisture content of the building site's soil and the intended use of the indoor spaces, moisture insulation or bitumen sheet waterproofing is used. For moisture insulation, bitumen solution is applied as a bonding layer followed by double-layer hot bitumen. Radon is a dangerous, invisible, and odorless noble gas found in soil. Radon is released into the air especially from well-aerated soils such as gravel and sand ridges. Radon-laden soil air penetrates basements and homes mainly through the building's subfloor and cracks between the foundation and the ground-supported slab.

Radon protection

Radon is a dangerous, invisible, and odorless noble gas found in soil. Radon is released into the air especially from well-aerated soils such as gravel and sand ridges. Radon-laden soil air penetrates basements and homes mainly through the building's subfloor and cracks between the foundation and the ground-supported slab.

Bitumen products

Bitumieristystuotteet kosteuden- ja vedeneristykseen. Kellarien maanvastaisten ulkoseinien ulkopinnassa käytetään vedeneristystä tai vedenpaine-eristystä, joka estää ympäröivän maan kosteuden ja pinta- sekä sulamisveden haitallisen tunkeutumisen rakenteeseen. Rakennuspaikan maaperän kosteudesta ja sisätilojen käyttötarkoituksesta riippuen käytetään kosteudeneristystä tai bitumikermeillä tehtävää vedeneristystä. Kosteudeneristyksessä käytetään tartuntasivelynä bitumiliuosta ja sen päälle kuumabitumointia kaksinkertaisena.

ELECTRIC TOOLS

Accessories for construction and electrical needs

Grounding copper wires

Suitable for grounding buildings. Meets electrical safety regulations, which state that a building connected to the electrical network must have a separate grounding electrode, which must be made of copper and have a cross-sectional area of at least 16 mm². The grounding electrode can be installed in a loop within the building's foundation or alternatively as a copper cable of at least 20 meters in the connection cable trench.

Product code	Product name	pcs/package	Unit
711460	Ground copper 16 / 25m	1.0	rl
711465	Ground copper 16 / 50m	1.0	rl

Fastening Accessories

Electrical installations require various fastening accessories, such as cable clips, cable ties, screws, anchors, and nuts. These components ensure that wires and other elements are securely and neatly attached to walls, ceilings, and other surfaces. Well-known brands in this category include fischer and BizLine. fischer's electrical fasteners allow for secure attachment of individual wires and cable bundles to various surfaces, such as concrete, brick, wood, and panel materials. The product range covers all specific requirements for electrical fastening – from cost-effective standard solutions to specialized accessories. fischer products provide reliable, safe, and durable fastening for a wide range of installation environments.

Crimping tools and accessories

A compression tool is an essential device that allows for the effective connection and sealing of various materials, such as pipes and hoses. We offer high-quality compression tools suitable for both professionals and hobbyists, providing reliable performance and user-friendliness. Compression tools work simply: place the material in the tool's compression section and squeeze the tool, causing the material to compress tightly. This process ensures that the joint is strong and durable.

Chemical fasteners

Chemical fasteners are a solution for securing very heavy loads in concrete, lightweight concrete, or brick without expansion. fischer possesses unique expertise in the development and manufacturing of chemical solutions. Thanks to this, optimal and reliable solutions are available for all applications, even under extreme conditions on construction sites, such as moisture, cold, or heat. These include approved capsule systems, injection mortars, threaded rods, internally threaded rods, anchor sleeves, and accessories.

GENERAL TERMS OF DELIVERY OF MELTEX OY PLASTICS

1. INTRODUCTION

Scope of application

These terms and conditions supersede the previous terms of delivery and shall be effective immediately. The terms and conditions shall apply to all transactions between the seller and the customer in Finland. Under these terms and conditions, Meltex Oy is the seller and the customer is the buyer.

Prices

Prices are based on our current price list and/or our offer at the time of the order confirmation. For non-stocked products, individually negotiated pricing will apply in each case. Prices do not include VAT or other tax-like charges or packaging costs, which shall be charged for separately. The seller reserves the right to revise the purchase prices without notice after the conclusion of the contract if exchange rates that directly affect import prices, taxes, tax-like charges or other charges independent of the seller change before the date of delivery.

2. CLOSING OF TRANSACTION

Offers and terms of sale

Offers made by the seller shall be valid for the period stated therein. If said period is not indicated, it shall be 30 days from the date of the offer. The recipient of the offer shall not be entitled to use the offer or any related documents to the detriment of the seller, or to disclose any information thereon to a third party. If the amount of the offer exceeds the credit limit agreed for the customer, the credit terms and conditions must be agreed separately. Images, drawings, calculations and other documents related to the offer shall be the property of the seller.

Order

In an offer-based transaction, a contract is made when the buyer has stated its acceptance of the offer made by the seller. In other cases, a transaction occurs when the buyer has placed an order and the seller has confirmed the order or delivered the ordered products as agreed.

3. OBLIGATIONS OF THE SELLER

Delivery time

The delivery time shall start from the date when all information required for delivery of the goods has been received by the seller and the seller has confirmed the delivery time for the buyer. In the event of a change in an order placed/confirmed, the delivery time will begin from the date of the seller's receipt of notification of the final change. If the seller and the buyer have agreed on the provision of security or an advance payment, at the earliest the delivery time shall be deemed to begin when the seller receives the security or advance payment.

Delays

The seller is obliged to inform the buyer immediately upon becoming aware of any delay. At the same time, the seller must state the reason for the delay and provide an estimated new delivery time. If the buyer does not object to the new delivery time within five (5) business days of receiving notification thereof, the buyer is not entitled to terminate the contract.

Warranty

The goods sold are covered by the manufacturer's warranty.

Properties of the goods

The seller shall be responsible for the quality and properties of the goods only as specified in the contract and other information provided by the seller. The buyer shall be responsible for the accuracy of the information issued to the seller regarding the intended use of the goods.

Consequential damage

The seller shall not be liable for any consequential damage caused to the buyer by a delay or defect in delivery.

Liability for damage caused by properties of goods (product liability)

The seller shall not be liable for any damage to the goods or to any immovable or movable property if the seller is not obliged to pay compensation under product liability in said case.

4. OBLIGATIONS OF THE BUYER

Payment of the purchase price

Unless otherwise agreed, the payment period shall be fourteen (14) days net. The payment period shall be calculated from the date of delivery or, in the case of pick-ups, from the date of collection. If an invoice is incorrect in some respects, the customer must notify the seller thereof within seven (7) business days. However, the correct sections of the invoice must be paid by the due date.

Freight

Freight costs will be charged for as agreed between the seller and buyer.

Inspection upon receipt of goods

Upon the receipt of the goods, the buyer or the buyer's agent must confirm that the delivery is in accordance with the delivery note and check that no external damage has occurred. Damage and defects must be reported immediately to the seller or carrier, and recorded in the delivery note.

Claims

If a supplied product is defective in some respects and the defect could not be detected during the receipt-of-goods inspection, the buyer must notify the seller about the defect within seven (7) business days of receipt of said product. In the first instance, the seller shall be entitled to either repair the defect or deliver a new product. In any case, the buyer is obliged to pay the purchase price of any undamaged parts of a delivery by the due date.

Returns

All product returns must be agreed in advance and performed as soon as the return of the product has been agreed. Goods must be returned in perfect condition in their packaging. Refunds and any costs incurred by the return of goods are subject to agreement on a case-by-case basis.

Transfer of title to the goods

Unless otherwise agreed, title to the goods shall pass from the seller to the buyer when the full purchase price has been paid.

Interest on late payments and recovery costs

In the event of a late payment, interest on late payments shall be charged at the rate applied by the seller. In addition, the seller shall have the right to charge the buyer for reasonable recovery costs.

Security

If the lodging of a security has been agreed, this must be done before delivery of the goods begins. Even then, the seller shall be entitled to require payment of the purchase price covered by the security if the seller has good reason to believe that the purchase price, or part thereof, will not be paid. The seller shall be entitled to delay further deliveries until overdue payments have been made or an acceptable security lodged. The seller shall also be entitled to act in this manner if an overdue part of the purchase price has not been paid. The buyer is not entitled to claim compensation for such a delay.

5. TERMINATION OF THE CONTRACT

Buyer's right to terminate the contract

If the seller's delivery differs materially from that agreed and, despite being notified thereof, the seller does not rectify the matter within a reasonable time or make a new delivery in place of the defective one, or if the delivery is delayed for reasons unattributable to the buyer thereby subjecting the buyer to unreasonable inconvenience, the buyer shall have the right to terminate the contract. The seller shall not be liable for any consequential damage the buyer may incur as a result of termination of the contract.

Seller's right to terminate the contract

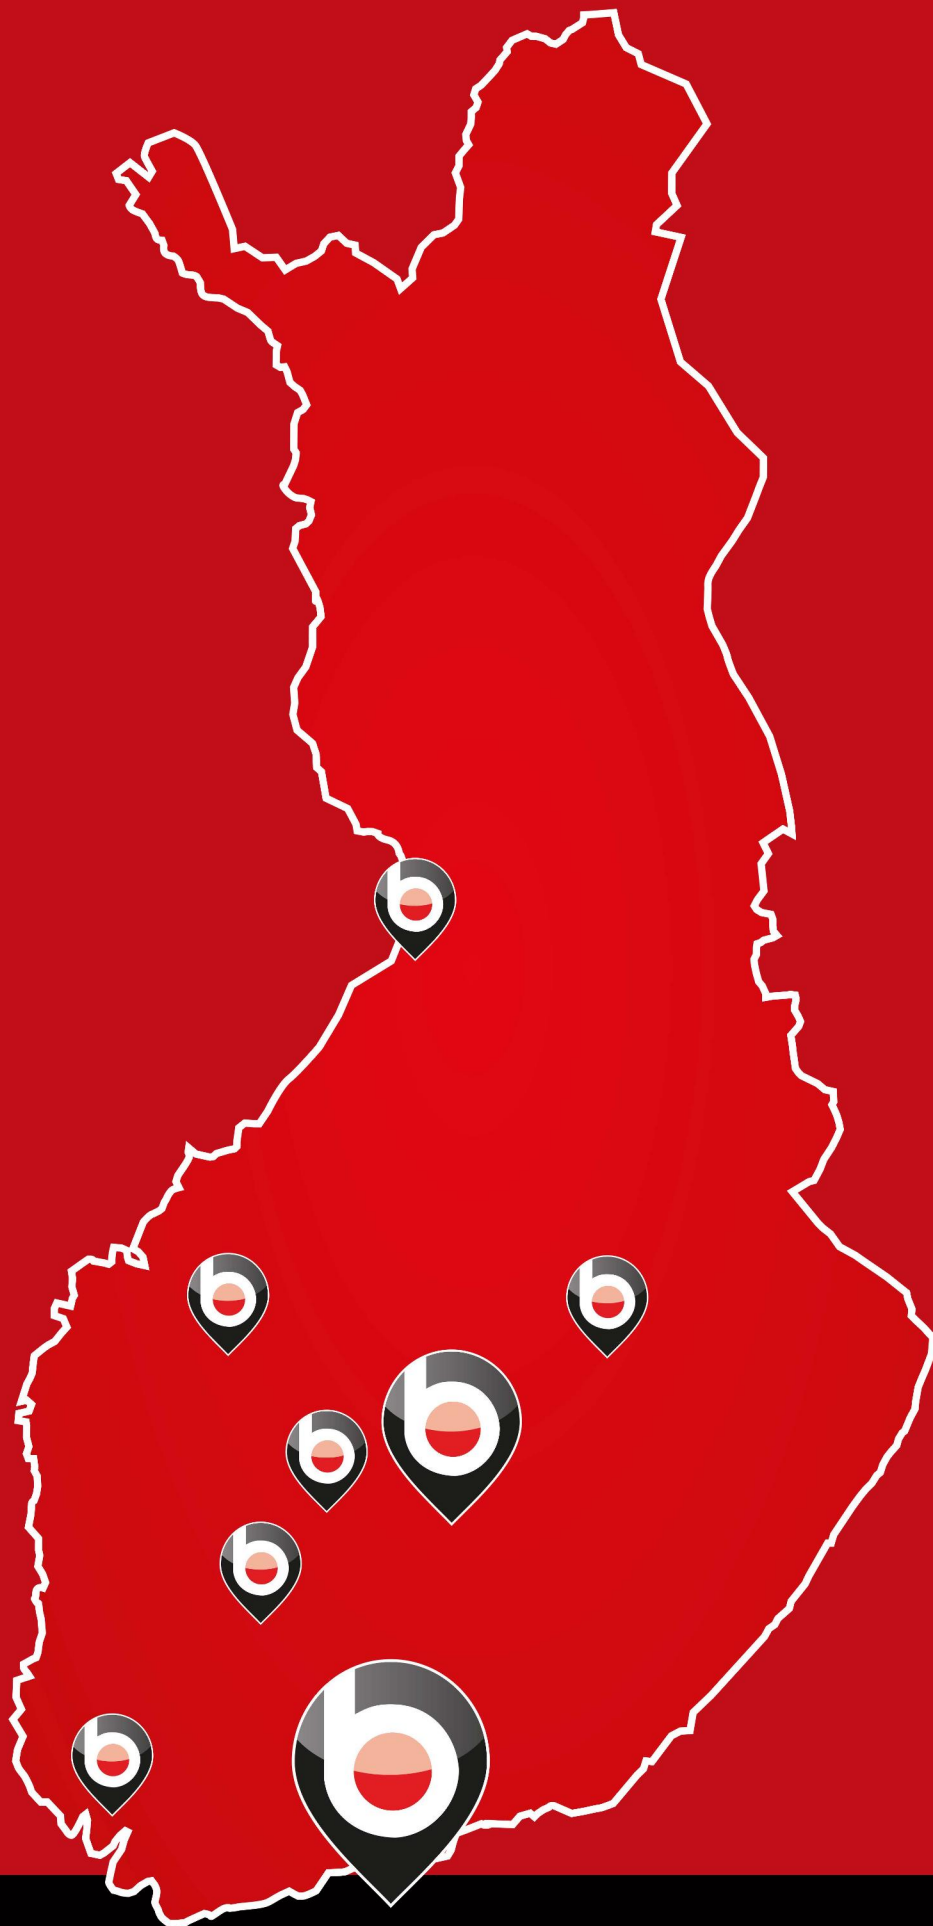

If payment of the purchase price is materially delayed for reasons beyond the seller's control, or if it is evident from the buyer's notification thereof or otherwise that a material delay will occur in payment by the buyer, the seller shall have the right to terminate the contract. If the buyer does not facilitate the transaction in the agreed or otherwise reasonable manner, the seller shall have the right to cancel the transaction. In the event of a breach by the buyer of its obligations under this contract, the seller shall have the right to terminate the contract of sale. In the event of termination of the contract of sale due to the buyer's breach of its obligations, the seller shall not be liable for any damages already incurred by the buyer or caused by the termination of contract.

Force majeure

The seller shall not be obliged to perform the contract if force majeure (such as natural phenomena, fire, damage to machinery, a strike, war or traffic disruption) prevents delivery of the goods or any part thereof. If performance of the contract would require the seller to make unreasonable sacrifices in the interests of the buyer, the seller shall not be liable for performance of the contract.

Settlement of disputes

Unless otherwise agreed, disputes concerning the interpretation of these terms of delivery shall be settled by a court of first instance in the seller's domicile.
